You will learn about journaling and mindfulness as methods for balancing your own energy and improving your animal communication and practice recognizing and interpreting energy in all forms. These tools are essential and will set you up for success when it comes to animal communication. Then you can move into the specific communication techniques, including creating an internal database of signs and symbols to help you interpret and understand your communication with animals, specific techniques for intuitive, energetic and telepathic communication both in person and remote, communicating with animals in the afterlife, calling upon spirit animals and power animals, the differences in communicating with wild animals compared to domesticated animals, connecting and communicating with lost animals, co-creating your best life with your animal.
