Critique Of Everyday Life Volume Ii:

Critique of Everyday Life: Foundations for a sociology of the everyday Henri Lefebvre, 1991 Henri Lefebvre's three volume *Critique of Everyday Life* is perhaps the richest most prescient work by one of the twentieth century's greatest philosophers. The first volume presented an introduction to the concept of everyday life. Written twenty years later this second volume attempts to establish the necessary formal instruments for analysis and outlines a series of theoretical categories within everyday life such as the theory of the semantic field and the theory of moments. The moment at which the book appeared 1961 was significant both for France and for Lefebvre himself he was just beginning his career as a lecturer in sociology at Strasbourg and then at Nanterre and many of the ideas which were influential in the events leading up to 1968 are to be found in this critique. In its impetuous often undisciplined prose the reader may catch a glimpse of how charismatic a lecturer Lefebvre must have been. *Henri Lefebvre* Andrew Merrifield, 2013-10-18 Philosopher sociologist and urban theorist Henri Lefebvre is one of the great social theorists of the twentieth century. This accessible and innovative introduction to the work of Lefebvre combines biography and theory in a critical assessment of the dynamics of Lefebvre's character thought and times. Exploring key Lefebvrian concepts Andy Merrifield demonstrates the evolution of Lefebvre's philosophy while stressing the way his long and adventurous life of ideas and political engagement live on as an enduring and inspiring interrelated whole. *Critique of Everyday Life* Henri Lefebvre, 2014-05-06 The three volume text by Henri Lefebvre is perhaps the richest most prescient work about modern capitalism to emerge from one of the twentieth century's greatest philosophers and is now available for the first time in one complete volume. Written at the birth of post war consumerism *Critique* was an inspiration for the 1968 student revolution in France. It is a founding text of cultural studies and a major influence on the fields of contemporary philosophy geography sociology architecture political theory and urbanism. Lefebvre takes as his starting point and guide the trivial details of quotidian experience an experience colonized by the commodity shadowed by inauthenticity yet remaining the only source of resistance and change. This is an enduringly radical text untimely today only in its intransigence and optimism. **Henry Green** Nick Shepley, 2016-07-29 Henry Green *Class Style and the Everyday* offers a critical prism through which Green's fiction from his earliest published short stories as an Eton schoolboy through to his last dialogic novels of the 1950s can be seen as a coherent subtle and humorous critique of the tension between class style and realism in the first half of the twentieth century. The study extends on going critical recognition that Green's work is central to the development of the novel from the twenties to the fifties acting as a vital bridge between late modernist inter war post war and postmodernist fiction. The overarching contention is that the shifting and destabilizing nature of Green's oeuvre sets up a predicament similar to that confronted by theorists of the everyday. Consequently each chapter acknowledges the indeterminacy of the writing whether it be the non singular functioning or malfunctioning of the name the open ended purposefully ambiguous nature of its symbols the shifting cinematic nature of

Green's prose style the sensitive but resolutely unsentimental depictions of the working classes and the aristocracy in the inter war period the impact of war and its inconsistent irruptions into daily life or the ways in which moments or events are rapidly subsumed back into the flux of the everyday their impact left uncertain Critics have historically offered up singular readings of Green's work or focused on the poetic or recreative qualities of certain works particularly those of the 1940s Green's writing is undoubtedly poetic and extraordinary but this book also pays attention to the clichéd meta-textual and uneventful aspects of his fiction Henri Lefebvre, Metaphilosophy, and Modernity Patrick Gamsby, 2025-08-22 Henri Lefebvre *Metaphilosophy and Modernity* provides a new interpretation of the work of Henri Lefebvre 1901-1991 reframing it as being above all a metaphilosophy of modernity Henri Lefebvre is increasingly being recognized as one of the great twentieth century thinkers Nevertheless the majority of scholarship on Lefebvre predominantly focuses on his theorizing of space often taking Lefebvre's *The Production of Space* as the point of departure and or on his theorizing of everyday life with his multi-volume *Critique of Everyday Life* as the focal point This book argues that it is Lefebvre's concept of metaphilosophy that provides the connective tissues for these works one that is chiefly concerned with deciphering the enigma of modernity The book will appeal to a wide interdisciplinary and international audience from the fields of sociology philosophy cultural studies geography the history of ideas and literary studies This includes scholars and students interested in Henri Lefebvre's writings everyday life modernity space time leisure work continental thought critical theory Marxism and technology

Metaphilosophy Henri Lefebvre, 2016-07-12 Leading French thinker with his key work on philosophical thought In *Metaphilosophy* Henri Lefebvre works through the implications of Marx's revolutionary thought to consider philosophy's engagement with the world Lefebvre takes Marx's notion of the world becoming philosophical and philosophy becoming worldly as a leitmotif examining the relation between Hegelian Marxist supersession and Nietzschean overcoming *Metaphilosophy* is conceived of as a transformation of philosophy developing it into a programme of radical worldwide change The book demonstrates Lefebvre's threefold debt to Hegel Marx and Nietzsche but it also brings a number of other figures into the conversation including Sartre Heidegger and Axelos A key text in Lefebvre's oeuvre *Metaphilosophy* is also a milestone in contemporary thinking about philosophy's relation to the world **The Routledge Handbook of Henri**

Lefebvre, The City and Urban Society Michael E. Leary-Owhin, John P. McCarthy, 2019-11-21 The Routledge Handbook of Henri Lefebvre *The City and Urban Society* is the first edited book to focus on Lefebvre's urban theories and ideas from a global perspective making use of recent theoretical and empirical developments with contributions from eminent as well as emergent global scholars The book provides international comparison of Lefebvrian research and theoretical conjecture and aims to engage with and critique Lefebvre's ideas in the context of contemporary urban social and environmental upheavals to use Lefebvre's spatial triad as a research tool as well as a point of departure for the adoption of ideas such as differential space to reassess Lefebvre's ideas in relation to nature and global environmental sustainability and to highlight how a

Lefebvrian approach might assist in mobilising resistance to the excesses of globalised neoliberal urbanism The volume draws inspiration from Lefebvre's key texts *The Production of Space* *Critique of Everyday Life* and *The Urban Revolution* and includes a comprehensive introduction and concluding chapter by the editors The conclusions highlight implications in relation to increasing spatial inequalities increasing diversity of needs including those of migrants more authoritarian approaches and asymmetries of access to urban space Above all the book illustrates the continuing relevance of Lefebvre's ideas for contemporary urban issues and shows via global case studies how resistance to spatial domination by powerful interests might be achieved The Handbook helps the reader navigate the complex terrain of spatial research inspired by Lefebvre In particular the Handbook focuses on the series of struggles globally for the right to the city and the collision of debates around the urban age cityism and planetary urbanisation It will be a guide for graduate and advanced undergraduate teaching and a key reference for academics in the fields of Human Geography Sociology Political Science Applied Philosophy Planning Urban Theory and Urban Studies Practitioners and activists in the field will also find the book of relevance

Urban Aesthetics in Early Modern London Christopher D'Addario, 2023-06-15 Tracing the demonstrative aesthetic shift in literary writings of fashionable London during the late 1590s this book argues that the new forms which emerged during this period were intimately linked arising out of a particular set of geographic intellectual and social circumstances that existed in these urban environs In providing a cohesive view of these disparate generic interventions Christopher D'Addario breaks new ground in significant ways By paying attention to the relationship between environment and individual imagination he provides a fresh and detailed sense of the spaces and social worlds in which the writings of prominent authors including Thomas Nashe and John Donne were produced and experienced In arguing that the rise of the metaphysical aesthetic occurred across a number of urban genres throughout the 1590s not just in lyric but also earlier in Nashe's prose as well as in the verse satire he rewrites English Renaissance literary history itself

Geographies of Rhythm Tim Edensor, 2016-04-15 In *Rhythmanalysis* Henri Lefebvre put forward his ideas on the relationship between time and space particularly how rhythms characterize space Here leading geographers advance and expand on Lefebvre's theories examining how they intersect with current theoretical and political concerns within the social sciences In terms of geography *rhythmanalysis* highlights tensions between repetition and innovation between the need for consistency and the need for disruption These tensions reveal the ways in which social time is managed to ensure a measure of stability through the instantiation of temporal norms whilst at the same time showing how this is often challenged In looking at the rhythms of geographies and drawing upon a wide range of geographical contexts this book explores the ordering of different rhythms according to four main themes rhythms of nature rhythms of everyday life rhythms of mobility and the official and routine rhythms which superimpose themselves on the multiple rhythms of the body

Practising Rhythmanalysis Yi Chen, 2016-10-21 This book explores *rhythmanalysis* as a philosophy and as a research method for the study of cultural

historical experiences It formulates rhythm as a critical concept which is defined in dialogic relationships to intellectual traditions yet introducing unique philosophical positions that serve to re think ways of conceiving and addressing cultural political issues Engaging with the notion of conjunctural shift which for Stuart Hall captures the ruptured social landscape of Britain in the 1970s the book then puts the method of rhythmanalysis to work by testifying the changing cultural experiences in rhythmic terms This particular rhythmanalytical project instantiates while opening up ways of using rhythmanalysis for exploring cultural historical experiences
