Robert A. G. Monks

Crony Capitalism In America 2008 2012:

Crony Capitalism in America Hunter Lewis, 2013-09-01 We see it everywhere shady zoning regulations in a small town taxpayer money diverted into political campaigns deals that enrich the few at the expense of the many billion dollar bailouts trillions of newly printed dollars flowing from government to Wall Street at giveaway interest rates brand name economists hired to defend the indefensible with a smokescreen of economic theory When private interests need a political favor they know whom to call When politicians need money they also know whom to call The people involved try to keep most of it concealed behind closed doors This is the system that prevails in Russia after the fall of Communism But increasingly it is America's system as well Many people regard Wall Street as the epicenter of American capitalism In reality it is the epicenter of American crony capitalism Where Wall Street stops and Washington begins is impossible to say This situation was not caused as many suppose by the Crash of 2008 Rather the Crash was caused by the longstanding Wall Street Washington partnership But the problem extends far beyond Wall Street to every corner of America If we are going to do anything about our present economic problems and also give the poor a chance at a better life we will need to eliminate crony capitalism Although full of hair raising stories this book is also about solutions It tells us in clear and simple terms what is wrong and what needs to be done about it

Globalization against Democracy Guoguang Wu, 2017-04-24 Globalization has reconfigured both the external institutional framework and the intrinsic operating mechanisms of capitalism The global triumph of capitalism implies the embracing of the market by the state in all its variants and that global capitalism is not confined to the shell of nation state democracy Guoguang Wu provides a theoretical framework of global capitalism for specialists in political economy political science economics and international relations for graduate and undergraduate courses on globalization capitalism development and democracy as well as for the public who are interested in globalization Wu examines the new institutional features of global capitalism and how they reframe movements of capital labor and consumption He explores how globalization has created a chain of connection in which capital depends on effective authoritarianism while democracy depends on capital Ultimately he argues that the emerging state market nexus has fundamentally shaken the existing institutional systems harming democracy in the process

The Emperor's Nightmare Robert A. G. Monks, 2022-03-21 From angry shareholders to concerned chief executives almost everyone knows at a gut level that the present political system is not working This book finds the root cause to be poor corporate governance In the prequel to this book *The Emperor's Nightingale* Robert A G Monks one of the world's foremost shareholder activists had warned corporations against putting short profit ahead of long term value for all stakeholders Few listened and the result was system wide trauma that only bold solutions can heal In *The Emperor's Nightmare* his latest book Monks reveals what can happen when corporate leadership abandons the common good to court and conquer a powerful elite This insightful honest and direct portrayal of corporate governance and the surrounding political system will be of immense value to those

interested in corporate governance particularly shareholder and stakeholder advocates and the true corporate leaders who serve them In the end better corporate governance means better democracy This book shows the way Challenges of Globalization and Prospects for an Inter-civilizational World Order Ino Rossi,2020-11-24 This is a must read volume on globalization in which some of the foremost scholars in the field discuss the latest issues Truly providing a global perspective it includes authorship and discussions from the Global North and South and covers the major facets of globalization cultural economic ecological and political It discusses the historical developments in governance preceding globalization the diverse theoretical and methodological approaches to globalization and analyzes underdevelopment anti globalization movements global poverty global inequality and the debates on international trade versus protectionism Finally the volume looks to the future and provides prospects for inter civilizational understanding rapprochement and global cooperation This will be of great interest to academics and students of sociology social anthropology political science and international relations economics social policy social history as well as to policy makers *The Next American Economy* Samuel Gregg,2022-10-18 Americans across the political spectrum have turned away from free market capitalism calling for more government intervention into the economy This optimistic book explains how a dynamic Commercial Republic that benefits all Americans is still possible Will someone intent on changing the direction of America s economy seize on this text and send it far and wide Hugh Hewitt author attorney and national host of The Hugh Hewitt Show Markets grounded in a commercial republic are what America needs Gregg shows why Vernon L Smith 2002 Nobel Laureate in Economics Professor of Business Economics and Law at Chapman University One of America s greatest success stories is its economy For over a century it has been the envy of the world The opportunity it generates has inspired millions of people to want to become American Today however America s economy is at a crossroads Many have lost confidence in the country s commitment to economic liberty Across the political spectrum many want the government to play an even greater role in the economy via protectionism industrial policy stakeholder capitalism or even quasi socialist policies Numerous American political and business leaders are embracing these ideas and traditional defenders of markets have struggled to respond to these challenges in fresh ways Then there is a resurgent China bent on eclipsing the United States s place in the world At stake is not only the future of the world s biggest economy but the economic liberty that remains central to America s identity as a nation But managed decline and creeping statism do not have to be America s only choices let alone its destiny For this book insists that there is an alternative And that is a vibrant market economy grounded on entrepreneurship competition and trade openness but embedded in what America s founding generation envisaged as the United States s future a dynamic Commercial Republic that takes freedom commerce and the common good of all Americans seriously and allows America as a sovereign nation to pursue and defend its interests in a dangerous world without compromising its belief in the power of economic freedom

Understanding Political Corruption Arvind K. Jain,2025-08-11 This book examines the development and persistence of

political corruption Arvind Jain explores how corrupt regimes deploy a range of tools to control and weaken the mechanisms that monitor their actions allowing them to expropriate a society's wealth while the international economy helps them safeguard their assets

Equal Is Unfair Don Watkins, Yaron Brook, 2024-05-01 Shows that government intervention in all areas of our lives not income inequality is what's really threatening the American Dream Mallory Factor New York Times bestselling author of *Shadowbosses* We've all heard that the American Dream is vanishing and that the cause is rising income inequality The rich are getting richer by rigging the system in their favor leaving the rest of us to struggle just to keep our heads above water To save the American Dream we're told that we need to fight inequality through tax hikes wealth redistribution schemes and a far higher minimum wage But what if that narrative is wrong What if the real threat to the American Dream isn't rising income inequality but an all out war on success In *Equal is Unfair* a timely and thought provoking work Don Watkins and Yaron Brook reveal that almost everything we've been taught about inequality is wrong You'll discover why successful CEOs make so much money and deserve to how the minimum wage hurts the very people it claims to help why middle class stagnation is a myth how the little known history of Sweden reveals the dangers of forced equality The critics of inequality are right about one thing the American Dream is under attack But instead of fighting to make America a place where anyone can achieve success they are fighting to tear down those who already have The real key to making America a freer fairer more prosperous nation is to protect and celebrate the pursuit of success not pull down the high fliers in the name of equality

Pop Culture and the Dark Side of the American Dream Paul A. Cantor, 2019-05-17 The many con men gangsters and drug lords portrayed in popular culture are examples of the dark side of the American dream Viewers are fascinated by these twisted versions of heroic American archetypes like the self made man and the entrepreneur Applying the critical skills he developed as a Shakespeare scholar Paul A Cantor finds new depth in familiar landmarks of popular culture He invokes Shakespearean models to show that the concept of the tragic hero can help us understand why we are both repelled by and drawn to figures such as Vito and Michael Corleone or Walter White Beginning with *Huckleberry Finn* and ending with *The Walking Dead* Cantor also uncovers the link between the American dream and frontier life In imaginative variants of a Wild West setting popular culture has served up disturbing and yet strangely compelling images of what happens when people move beyond the borders of law and order Cantor demonstrates that at its best popular culture raises thoughtful questions about the validity and viability of the American dream thus deepening our understanding of America itself

Liberalism Unveiled: Forging A New Third Way In Singapore Bryan Yi Da Cheang, Donovan Choy, 2021-01-04 Since 1965 Singapore has been propelled to the dizzying heights of first world prosperity Yet the People's Action Party's signature style of technocratic elitism has come under increasing criticism by a new generation of left leaning progressive scholars and activists condemning the excesses of neoliberalism The PAP's mode of governance that prioritizes economic growth is criticised in favour of a vaguely European style welfare state and greater state intervention Bryan

Cheang and Donovan Choy break this traditional pro PAP versus anti PAP dichotomy by providing a fresh classical liberal perspective. The authors contend that both sides discern only parts of the political puzzle correctly. This book envisions a new path forward for Singapore's policy making one characterised by greater competition freedom. It critiques the conservative right through a fresh take on the philosophical underpinnings of the Singapore Consensus, communitarianism, meritocracy and technocracy. The authors also engage with the new social democratic orthodoxy, demonstrating the dangers of egalitarian interventions, state based environmentalism. Applying the interdisciplinary insights of political philosophy and political economy, this novel account recommends epistemic liberalism, a system of governance based on intellectual humility, limited government and decentralisation.

Handbook of Racism, Xenophobia, and Populism Adebowale Akande, 2022-12-08

This handbook presents the roots of symbolic racism as partly in both anti black antagonism and non racial conservative attitudes and values, representing a new form of racism independent of older racial and political attitudes. By doing so, it homes in on certain historical incidents and episodes and presents a cogent analysis of anti black Jim Crowism, anti people of color Black Latino Native Americans and prejudice that exists in the United States and around the world as a central tenet of racism. The book exposes the reader to the nature and practice of stereotyping, negative bias, social categorization, modern forms of racism, immigration law, empowerment, racialized incarceration and police brutality in the American heartland. It states that several centuries of white Americans' negative socializing culture, marked by widespread negative attitudes toward African Americans, are not eradicated and are still rife. Further, the book provides a panoramic view of trends of racial discrimination and other negative and desperate challenges that Black Indigenous and People of Color face across the world. Finally, the volume examines xenophobia, racism, prejudice and stereotyping in different contexts, including topics such as Covid 19, religion and racism, information manipulation and populism. The book therefore is a must read for students, researchers and scholars of political science, psychology, history, sociology, communications, media studies, diplomatic studies and law in general, as well as ethnic and racial studies, American politics, global affairs, populism and discrimination in particular.

The Enigmatic Realm of **Crony Capitalism In America 2008 2012**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Crony Capitalism In America 2008 2012** a literary masterpiece penned with a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of people who partake in its reading experience.
