

## Water Use Survey Cross Connection Control

Greater Ouachita Water Company (GOWC) has developed a cross-connection control program (CCCP) to help eliminate potential cross-connections from the potable water supply. A cross-connection is the point at which a contaminated substance comes in contact with a drinking water system. This survey is a requirement of the Louisiana State Plumbing Code. We are conducting this survey of all our water customers to protect the water supply for all citizens. This information will be used to prevent possible contamination of our drinking water system. If a cross-connection is found to exist, appropriate corrective action will need to be taken.

Please return this survey to the address below:
