Crossing The Border Encounters Between Homeless People And Outreach Workers:

Crossing the Border Michael Rowe,1999 **Opening Doors** ,2000 Citizenship and Mental Health Michael

Rowe,2015 More than 50 years ago President Kennedy gave an address to Congress that launched the community mental health movement in the U S This movement involved a vast and complex effort to replace the wholesale institutionalization of people with serious mental illnesses with community mental health centers public education on mental illness and prevention efforts The mission and main thrust of this new movement however were quite simple we would provide effective mental health treatment to people in their home communities and provide the conditions for them to have a life in the community Starting in the 1990s with Jim a person who was homeless and initially refused help from outreach workers Citizenship Mental Health tells a 20 year story of practice theory and research to support the full participation of persons with mental illnesses who in many cases have also been homeless have criminal charges in their past and are poor As the first of its kind this book addresses the concept of citizenship as an applied theory for fulfilling the promise of the community mental health center movement Citizenship is defined as a strong connection to the 5 R s of rights responsibilities roles resources and relationships that society offers to its members and a sense of belonging that comes from others recognition of one s valued membership in society The citizenship model supports the strengths hopes and aspirations of people with mental illnesses to become neighbors community members and citizens **Lived Citizenship on the Edge of Society** Hanne

Warming,Kristian Fahnøe,2017-07-12 This edited collection presents the concept of lived citizenship as a fruitful avenue for exploring the role played by social work practices in the lives of people in vulnerable positions The book centres on the everyday experiences through which people practice negotiate understand and feel their citizenship The authors offer both empirical analyses of how social work influences the rights obligations identities and belongings of children homeless people migrants ethnic minorities and young people with mental disabilities and a theoretical framework for analysing the complexities of social work Drawing on the notion of intimate citizenship and an understanding of citizenship as socio spatial the theoretical framework addresses the challenges of enhancing the agency of social work clients and of promoting inclusive citizenship and how these challenges are shaped by emotions affect rationality materiality power relations policies and managerial strategies Lived Citizenship on the Edge of Society will be of interest to students and scholars across a range of disciplines including social policy and social work **New Sociologies of Sex Work** Kate Hardy,Sarah

Kingston,2016-05-06 Sex work studies have seen an expansion in publications over the past decade drawing together disciplines from across the social sciences namely sociology criminology and social policy There has however been a tendency for research and writing to focus on the more obvious aspect of the sex industry the visible elements of female street prostitution and those features which attract media attention such as the criminalised aspects of the sex trade The sex industry is diverse in terms of its organisation presentation participants and how it is located in the broader context of

globalisation and regulation there is a need for publications which demonstrate this breadth This book makes an outstanding contribution to the sociology of sex work through advancing theoretical policy methodological and empirical ideas as each chapter pushes the boundaries of a specific area by offering new and critical research as well as commentary *Leaving the field* Robin James Smith, Sara Delamont, 2023-07-04 *Leaving the field* gathers various accounts of ethnographers leaving their field sites In doing so the book offers original insights into an often overlooked aspect of the research process the ethnographic exit The chapters variously consider situations in which the researcher must extricate themselves from field relations deal with unexpected or imperfect ends to projects or manage situations in which the field becomes hard to leave Whilst the chapters are firmly focussed on ethnographic exits they also provide more general methodological insights into the conduct of fieldwork and the writing of ethnography as well as questioning established notions of the field as a bounded setting the researcher straightforwardly visits and then leaves The book highlights the importance of recognising ethnographic exits as an essential part of the research process *Modern Homelessness* Mary Ellen Hombs, 2011-04-19 This in depth examination reviews fundamental changes of the past decade that have reduced homelessness in the United States and other Western democracies Focusing on the last decade *Modern Homelessness A Reference Handbook* examines the issue in the United States and in other nations that have adopted new strategies to address homelessness and achieved notable results in preventing and ending it The handbook covers the unprecedented reductions first announced in 2007 and the crucial shifts in strategy and investment and the results that brought them about These fundamental changes are analyzed to identify the factors that proved most effective in altering the national and local dialogue and response relative to this daunting issue In addition to a brief history of homelessness in contemporary times the handbook examines key developments of the past decade in research policy housing models and service delivery that have been shown to decrease homelessness These include active partnership among the governments of the United States Canada England Australia New Zealand and others that moved the discussion in a new direction The story is brought up to date with a consideration of the effects of the 2008 economic crisis **The Word On The Street** Kurt Borchard, 2005-03-01 Just beyond Las Vegas s neon and fantasy live thousands of homeless people most of them men To the millions of visitors who come to Las Vegas each year to enjoy its gambling and entertainment the city s homeless people are largely invisible segregated from tourist areas because it s good business Now through candid discussions with homeless men analysis of news reports and years of fieldwork Kurt Borchard reveals the lives and desperation of men without shelter in Las Vegas Borchard s account offers a graphic disturbing and profoundly moving picture of life on Las Vegas s streets depicting the strategies that homeless men employ in order to survive from the search for a safe place to sleep at night to the challenges of finding food maintaining personal hygiene and finding an acceptable place to rest during a long day on the street That such misery and desperation exist in the midst of Las Vegas s hedonistic tourist economy and booming urban development is a cruel irony according to the

author and it threatens the city's future as a prime tourist destination. The book will be of interest to social workers, sociologists, anthropologists, politicians, and all those concerned about changing the misery on the street. **Merleau-Ponty**

Patricia M. Locke, Rachel McCann, 2016-01-25 Phenomenology has played a decisive role in the emergence of the discourse of place now indispensable to many disciplines in the humanities and social sciences and the contribution of Merleau-Ponty's thought to architectural theory and practice is well established. **Merleau-Ponty Space Place Architecture** is a vibrant collection of original essays by twelve eminent philosophers who mine Merleau-Ponty's work to consider how we live and create as profoundly spatial beings. The resulting collection is essential to philosophers and creative artists as well as those concerned with the pressing ethical issues of our time. Each contributor presents a different facet of space, place, or architecture. These essays carve paths from Merleau-Ponty to other thinkers such as Irigaray, Deleuze, Ettinger, and Piaget. As the first collection devoted specifically to developing Merleau-Ponty's contribution to our understanding of place and architecture, this book will speak to philosophers interested in the problem of space, architectural theorists, and a wide range of others in the arts and design community. Contributors: Nancy Barta, Smith, Edward S. Casey, Helen Fielding, Lisa Guenther, Galen A. Johnson, Randall Johnson, D. R. Koukal, Suzanne Cataldi, Laba, Patricia M. Locke, Glen Mazis, Rachel McCann, David Morris, and Dorothea Olkowski. **Mental Health Care Issues in America**
