Transnational Education Crossing 'Asia' and 'the West' Le-Ha Phan, 2016-10-04 In this book Phan Le Ha identifies and discusses four growing self sustained sustaining fundamental phenomena in transnational education TNE namely 1 the planned evolving and transformative mediocrity behind the endorsement of English medium education legitimized by the interactive Asia the West relationship 2 the strategic employment of the terms Asia Asian and West Western by all stakeholders in their perceptions and construction of choice quality rigour reliability and attractiveness of programs courses and locations 3 the adjusted desire for an imagined and often misinformed West among various stakeholders of transnational education and 4 the assigned and self realized ownership of English by otherwise normally on the margin groups of speakers A focus on how these phenomena impact questions of identity and desire in TNE is a running theme The above phenomena are discussed against the backdrop of the rise of Asia sentiment and how this sentiment has played out in interactions and relationships between the West and Asia and among Asian institutions and various entities Phan Le Ha s examination of the identified phenomena in TNE has been informed by her multi layered engagement with the dialectic of the Asia the West relationship her critical take on certain pro Asia and

decolonisation scholarship and her interdisciplinary and multidisciplinary approach to theorise the field and the specific topic under scrutiny Phan Le Ha shows that the current Asia chooses not necessarily by force but largely by will and often with an informed and well articulated agency to go with the idea of the West and often desires an affiliation with the West either directly or indirectly something that is getting more intense in the context of globalization regionalization and commercialization of education The rise of Asia has made the idea of the West even more looked for in Asia TNE in Asia in many ways is the transforming and dynamic transit point a layover that facilitates entry into a wanted destination the West and or the idea of the West The West and Asia need one another more than ever in the context of the internationalization and commercialization of higher education What s more the West and Asia have hardly ever been mutually exclusive but have rather been in an eventful love and obsession relationship with each other This is the very dialectic proposition that Phan Le Ha takes throughout this book while paying specific attention to transnational higher education in the greater Asian region including the Middle East following her several research projects conducted in the region since 2005 to date Transnational Education Crossing the West and Asia explores English Internationalisation of Higher Education and Identity Increasing Academic Monolingualism and English only Package Transnational Education and Dream Realization From the Philippines to Vietnam From Afghanistan to Dubai From Everywhere in Asia to Thailand Desiring International Transnational Education Theorisation of Key Concepts and Next Steps from Here The book will be of interest to researchers in the field of transnational education Asia education and education policy Social Work Field Education and Supervision Across Asia Pacific Carolyn Noble,Mark Henrickson,2011 The editors and contributors who are engaged in a broad array of professional interests hope that readers will find this book both inspiring and challenging as they teach and learn from each other across Asia Pacific Australian and NZ authors **Reforming Higher Education in Vietnam** Grant Harman,Martin Hayden,Thanh Nghi Pham,2009-12-16 Vietnam is a dynamic member of the community of Southeast Asian nations Consistent with aspirations across the region it is seeking to develop its higher education system as rapidly as possible Vietnam s approach stands out however as being extremely ambitious Indeed it may be at risk of attempting to do too much too quickly By 2020 for example Vietnam expects its higher education system to be advanced by modern standards and highly competitive in international terms This vision faces many challenges The economy though growing rapidly remains reliant on the availability of unskilled labour and the exploitation of natural resources and decision making in many areas of public life continues to be hamstrung by a legacy of over regulation and centralised control A large number of goals and objectives have been set for reform of the higher education system by 2020 The success of these reforms will have a major bearing on the future quality of the system This sober assessment Vietnam s global competitiveness forms a backdrop to the subject matter of this book that is the state of Vietnam s higher education system The book provides a comprehensive and scholarly review of various dimensions of the higher education system in Vietnam including its recent history its structure and governance its teaching

and learning culture its research and research commercialisation environment its socio economic impact its strategic planning processes its progress with quality accreditation and its experience of internationalisation and privatisation

Vietnam's Strategic Thinking during the Third Indochina War Kosal Path,2020-02-11 When costly efforts to cement a strategic partnership with the Soviet Union failed the combined political pressure of economic crisis at home and imminent external threats posed by a Sino Cambodian alliance compelled Hanoi to reverse course Moving away from the Marxist Leninist ideology that had prevailed during the last decade of the Cold War era the Vietnamese government implemented broad doi moi renovation reforms intended to create a peaceful regional environment for the country s integration into the global economy In contrast to earlier studies Path traces the moving target of these changing policy priorities providing a vital addition to existing scholarship on asymmetric wartime decision making and alliance formation among small states The result uncovers how this critical period had lasting implications for the ways Vietnam continues to conduct itself on the global stage
