Critical Mass How One Thing Leads To Another:

Critical Mass Philip Ball, 2004 In searching for answers the science writer Philip Ball argues that we can enlist help from a seemingly unlikely source physics The first person to think this way was the seventeenth century English philosopher Thomas Hobbes His approach described in *Leviathan* was based not on utopian wishful thinking but rather on Galileo s mechanics it was an attempt to construct a moral and political theory from scientific first principles Although his solution absolute monarchy is unappealing today Hobbes sparked a new way of thinking about human behavior in looking for the scientific rules of society Adam Smith Immanuel Kant Auguste Comte and John Stuart Mill pursued this same idea from different political perspectives BOOK JACKET
