Cultural and Social Division in Contemporary Japan Yoshikazu Shiobara, Kohei Kawabata, Joel Matthews, 2019-07-30 The recent manifestation of exclusionism in Japan has emerged at a time of intensified neoliberal economic policies increased cross border migration brought on by globalization the elevated threat of global terrorism heightened tensions between East Asian states over historical and territorial conflicts and a backlash by Japanese conservatives over perceived historical apologism The social and political environment for minorities in Japan has shifted drastically since the 1990s yet many studies of Japan still tend to view Japan through the dominant discourses of ethnic homogeneity *tanitsu minzoku shakai* and middle class society *so churyu shakai* which positions the exclusion of minorities as an exceptional phenomenon While exclusionism has been recognized as a serious threat to minority groups it has not often been considered a representative issue for the whole of Japanese society This tendency will persist until the discourses of *tanitsu minzoku shakai* and *so churyu shakai* are systematically debunked and Japan is widely recognized as both multiethnic and socio economically stratified Today as with most advanced capitalist countries serious social divides occasioned by the impacts of globalization and neoliberalism have destabilized Japanese society This book explores not only how Japanese society is diversified and unequal but also how diversity and inequality have caused people to divide into separate realities from which conflict and violence have emerged It empirically examines the current situation while considering the historical development of exclusionism from the interdisciplinary viewpoints of history policy studies cultural studies sociology and cultural anthropology In addition to analyzing the realities of division and exclusionism the authors propose theoretical alternatives to overcome such cultural and social divides
