Critical Realism Justin Cruickshank, 2003-09-02 This reader is designed to make accessible in one volume to lay person and academic student and teacher alike key readings to stimulate debate about and within critical realism

Critical Realism, Environmental Learning and Social-Ecological Change Leigh Price, Heila Lotz-Sistka, 2015-12-14 Southern Africa where most of these book chapters originate has been identified as one of regions of the world most at risk of the consequences of environmental degradation and climate change At the same time it is still seeking ways to overcome the century long ravages of colonial and apartheid impositions of structural and epistemic violence Research deliberations and applied research case studies in environmental education and activism from this region provide an emerging contextualized engagement that is related to a wider internationally articulated quest to achieve social ecological justice resilience and sustainability through educational interventions This book introduces a decade of mainly southern African critical realist environmental education research and thinking that asks the question How can we facilitate learning processes that will lead to the flourishing of the Earth's people and ecosystems in more socially just ways The environmental education research topics represented in this book are wide ranging However they all exhibit the common theme of social justice and wanting to create change towards a better future All the authors have used critical realist or critical realist influenced research methodologies Offering contributions from a small but growing community of researchers working with critical realism in the global South this book will be of interest to students scholars and practitioners in the areas of environmental education sustainability development and the philosophy of critical realism in general

Critical Realism and Composition Theory Donald Judd, 2005-07-05 This volume examines expressivist cognitivist and social constructivist theories within composition theory and critiques the epistemological focus of modern composition theory and its neglect of the ontological foundations

Dictionary of Critical Realism Mervyn Hartwig, 2015-01-30 Dictionary of Critical Realism fulfils a vital gap in the

literature Critical Realism is often criticised for being too opaque and deploying too much jargon thereby making the concepts inaccessible for a wider audience However as Hartwig puts it Just as the tools of the various skilled trades need to be precision engineered for specific interrelated functions so meta theory requires concepts honed for specific interrelated tasks it is impossible to think creatively at that level without them This Dictionary seeks to redress this problem to throw open the important contribution of Critical Realism to a wider audience for the first time by thoroughly explaining all the key concepts and key developments It includes 500 entries on these themes and has contributions from major players in field However this text does not stop there it goes further than simply elucidating the concepts and includes a number of essays which use the notions in important areas thereby demonstrating the appropriate use of the concepts in action to encourage their wider use This book will become a requisite reference tool for Critical Realist scholars and Philosophers and Social scientists alike will enjoy this vital introduction and explanatory text of the indispensable ideas contained within the dynamic and vibrant school of Critical Realism

Critical Event Studies Ian R Lamond,Louise Platt,2016-06-10 Critical Event Studies is a growing field not just within event management and event studies but across the traditional and digital social sciences This volume with contributions from a range of international scholars is the first to consider the wide variety of research approaches being used by academics from around the world whose interests lie within the reach of this emerging field Each chapter uses one or more case examples to present and discuss different methodological approaches applicable to research within critical event studies Students and academics alike will find inspiration and critical reflection on methodology that can support their own projects

Critical Realism and Marxism Andrew Brown,Steve Fleetwood,John Michael Roberts,2003-09-02 This book examines the relationship between critical realism and Marxism The authors argue that critical realism and Marxism have much to gain from each other This is the first book to address the controversial debates between critical realism and Marxism and it does so from a wide range of disciplines The authors argue that whilst one book cannot answer all the questions about the relationship between critical realism and Marxism this book does provide some significant answers In doing so Critical Realism and Marxism reveals a potentially fruitful relationship deepens our understanding of the social world and makes an important contribution towards eliminating the barbarism that accompanies contemporary capitalism

Critical Realism, Post-positivism and the Possibility of Knowledge Ruth Groff,2004-07-31 Groff defends realism about causality through close discussions of Kant Hilary Putnam Brian Ellis and Charles Taylor among others In so doing she affirms critical realism but with several important qualifications In particular she rejects the theory of truth advanced by Roy Bhaskar She also attempts to both clarify and correct earlier critical realist attempts to apply realism about causality to the social sciences By connecting issues in metaphysics and philosophy of science to the problem of relativism Groff bridges the gap between the philosophical literature and broader debates surrounding socio political theory and poststructuralist thought This unique approach will make the book of interest to philosophers and socio political

theorists alike **Critical Realism and Housing Research** Julie Lawson, 2013-01-11 Since the nineteenth century various housing solutions have evolved such as sprawling Australian home ownership and compact Dutch social rental housing This phenomenon cannot be adequately explained with simple descriptions of key events politics and housing outcomes Critical Realism and Housing Studies pushes debate forward arguing that a new ontological perspective is required to address fundamental issues in housing and comparative research This book is clearly organized into three parts which evaluate ontological and methodological alternatives for comparative housing research provide two historical case studies inspired by critical realist ontology compare the causal tendencies that explain diverging housing pathways in Australia and the Netherlands Lawson proposes that we turn to critical realism for the solution From this perspective the causal tendencies of complex open and structured housing phenomena are highlighted With this insight we are able to extract the key social arrangements which promote different housing solutions from the historical case studies Social arrangements which are found to influence alternative pathways in housing history concern the property rights circuit of savings and investment as well as labour and welfare relations As they develop differently over time and space they affect where when and how housing solutions develop
