Children Catherine Barr, 2006 Contains more than 25,000 titles of books recommended for children in grades K-6. *Jordan*, 2007 Identity and Religion in Palestine Loren D. Lybarger, 2018-06-05 This remarkable book examines how the Islamist movement and its competition with secular nationalist factions have transformed the identities of ordinary Palestinians since the first Palestinian uprising or intifada of the late 1980s. Drawing upon his years living in the region and more than eighty in-depth interviews, Loren Lybarger offers a riveting account of how activists within a society divided by religion, politics, class, age, and region have forged new identities in response to shifting conditions of occupation, peace negotiations, and the fragmentation of Palestinian life. Lybarger personally witnessed the tragic days of the first intifada, the subsequent Oslo Peace Process, and its failures, and the new escalation of violence with the second intifada in 2000. He rejects the simplistic notion that Palestinians inevitably fall into one of two camps: pragmatists who are willing to accept territorial compromise and extremists who reject compromise in favor of armed struggle. Listening carefully to Palestinians themselves, he reveals that the conflicts evident among the Islamists and secular nationalists are mirrored by the internal struggles and divided loyalties of individual Palestinians. *Identity and Religion in Palestine* is the first book of its kind in English to capture so faithfully the rich diversity of voices from this troubled part of the world. Lybarger provides vital insights into the complex social dynamics through which Islamism has reshaped what it means to be Palestinian. **Competitive Archaeology in Jordan** Elena

Corbett, 2015-01-15 An examination of archaeology in Jordan and Palestine. *Competitive Archaeology in Jordan* explores how antiquities have been used to build narratives and national identities. Tracing Jordanian history and the importance of Jerusalem within that history, Corbett analyzes how both foreign and indigenous powers have engaged in a competition over ownership of antiquities and the power to craft history and geography based on archaeological artifacts. She begins with the Ottoman and British Empires, under whose rule the institutions and borders of modern Jordan began to take shape, asking how they used antiquities in varying ways to advance their imperial projects. Corbett continues through the Mandate era and the era of independence of an expanded Hashemite Kingdom, examining how the Hashemites and other factions both within and beyond Jordan have tried to define national identity by drawing upon antiquities. *Competitive Archaeology in Jordan* traces a complex history through the lens of archaeology's power as a modern science to create and give value to spaces.

artifacts peoples narratives and academic disciplines It thus considers the role of archaeology in realizing Jordan s modernity drawing its map delineating sacred and secular spaces validating taxonomies of citizens justifying legal frameworks and institutions of state determining logos of the nation for display on stamps currency and in museums and writing history Framing Jordan s history in this way Corbett illustrates the manipulation of archaeology by governments institutions and individuals to craft narratives draw borders and create national identities

Walled Sylvain Cypel, 2006 An award winning journalist explores the culture of denial in Israeli and Palestinian societies and its lethal consequences Walled examines the contemporary state of mind of Israel s citizens tracing the history of the State of Israel back to the Jewish national movement and the beginnings of Zionism Sylvain Cypel offers a lucid analysis of the Israeli Palestinian situation and powerfully demonstrates that the wall of protection erected in the West Bank by Israel is the most visible symptom of a society in peril Those who are walled Cypel argues are first and foremost the Israelis themselves who have chosen to ignore rather than acknowledge the existence and rights of their neighbors Through the study of political discourse intellectual controversy and national institutions such as the army and the educational system Cypel illuminates the mechanics of the culture of force that has led Israeli society into its current impasse Walled combines historical cultural and sociological analysis with personal testimonies and a delightful Jewish wit offering a cogent and gripping portrait of two peoples walled by denial Israeli society and its other the Palestinians
