When Reporters Cross the Line Stewart Purvis, Jeff Hulbert, 2013-09-05 *When Reporters Cross the Line* tells the true story of moments when the worlds of media propaganda politics espionage and crime collide casting journalism into controversy Its pages feature some of the best known names in British broadcasting including John Simpson Lindsey Hilsum and Charles Wheeler There are men and women who went beyond recognised journalistic conventions Some disregarded the code of their craft in the name of public interest some crossed the line in ways that had truly shocking consequences Many of the details have been kept as closely guarded secrets until now This unique

account of modern reporting examines the lengths to which journalists on the front line are prepared to go to get a story or to espouse a cause. Journalistic heroes and villains abound but certain of those heroes were flawed and some of the villains were surprisingly principled. In the heat of war and political conflict boundaries are ignored and ethics forgotten and not just by opposing armies. In this extraordinary book Stewart Purvis and Jeff Hulbert offer unparalleled access to the minds of reporters and to the often disturbing decisions they make when faced with extreme situations. In doing so it hammers home some unpalatable truths posing the fundamental question where do you draw the line.

Chinese Divination Book, I Ching Josey Shun, 2015-02-04 There are numerous commentaries of I Ching by Chinese scholars over thousands years. Regardless how graceful the language they have used I Ching is fundamentally a divination book. I try to use as simple as possible English language to help readers to get quick answers of their questions in mind. So other than explanation of the theme of each hexagram there are 18 brief answers to most popular questions: conflict, deal, family, fortune, job, hunting, lost, stuff, marriage, relationship, missing person, new career, etc. In this book it also tells the reader it is time to wait, to retreat, or to go ahead. Sometimes we just have to do nothing and patiently wait for the situation to turn around. It is all about the timing, good or bad. If you don't use I Ching for divination it is also a good book to see so many scenarios in our daily life. It is amazing to see how the combination of 8 natural elements: Ying, Yang, wind, fire, water, thunder, lake, and mountain can interpret the realistic 384 scenarios of humanity life. Relax and enjoy the book.

Keywords: Chinese wisdom, I Ching, Book of Change, Divination Book, Ying and Yang, Answers to life questions, Study of Chinese culture, Chinese culture, Tai Ji.

The Paradox of Ukrainian Lviv Tarik Cyril Amar, 2015-11-17 The Paradox of Ukrainian Lviv reveals the local and transnational forces behind the twentieth century transformation of Lviv into a Soviet and Ukrainian urban center. Lviv's twentieth century history was marked by violence, population changes, and fundamental transformation ethnically, linguistically, and in terms of its residents' self-perception. Against this background, Tarik Cyril Amar explains a striking paradox: Soviet rule, which came to Lviv in ruthless Stalinist shape and lasted for half a century, left behind the most Ukrainian version of the city in history. In reconstructing this dramatically profound change, Amar illuminates the historical background, in present-day identities and tensions within Ukraine.

Southern History across the Color Line, Second Edition Nell Irvin Painter, 2021-02-17 The color line, once all too solid in southern public life, still exists in the study of southern history. As distinguished historian Nell Irvin Painter notes, we often still write about the South as though people of different races occupied entirely different spheres. In truth, although blacks and whites were expected to remain in their assigned places in the southern social hierarchy throughout the nineteenth century and much of the twentieth century, their lives were thoroughly entangled. In this powerful collection of pathbreaking essays, Painter reaches across the color line to examine how race, gender, class, and individual subjectivity shaped the lives of black and white women and men in the nineteenth and twentieth century South. She explores such themes as interracial sex, white supremacy, and the physical and psychological violence of slavery, using insights gleaned

from psychology and feminist social science as well as social cultural and intellectual history The book illustrates both the breadth of Painter s interests and the originality of her intellectual contributions This edition features refreshed essays and a new preface that sheds light on the development of Painter s thought and our continued struggles with racism in the twenty first century

Crossing the Color Line Carina E. Ray,2015-10-15 Interracial sex mattered to the British colonial state in West Africa In Crossing the Color Line Carina E Ray goes beyond this fact to reveal how Ghanaians shaped and defined these powerfully charged relations The interplay between African and European perspectives and practices argues Ray transformed these relationships into key sites for consolidating colonial rule and for contesting its hierarchies of power With rigorous methodology and innovative analyses Ray brings Ghana and Britain into a single analytic frame to show how intimate relations between black men and white women in the metropole became deeply entangled with those between black women and white men in the colony in ways that were profoundly consequential Based on rich archival evidence and original interviews the book moves across different registers shifting from the micropolitics of individual disciplinary cases brought against colonial officers who kept local women to transatlantic networks of family empire and anticolonial resistance In this way Ray cuts to the heart of how interracial sex became a source of colonial anxiety and nationalist agitation during the first half of the twentieth century
