David Mitchell Back Story By Mitchell David 2013 Paperback:

David Mitchell Wendy Knepper, Courtney Hopf, 2019-07-25 David Mitchell is one of the most critically acclaimed authors in contemporary global writing. Novels such as *Ghostwritten*, *Cloud Atlas* and *The Bone Clocks* demonstrate the author's dazzling literary technique in an oeuvre that crosses genres, genders and borders moving effortlessly through time and space. *David Mitchell: Contemporary Critical Perspectives* brings together leading scholars of contemporary fiction to guide readers through the full range of the author's writings including discussions of all of his novels to date plus his shorter fictions, essays and libretti. As well as offering extended coverage of Mitchell's most popular work *Cloud Atlas*, the authors explore Mitchell's genre-hopping techniques, world-making aesthetics and engagements with key contemporary issues such as globalization, empire, the environment, disability, trauma and technology. In addition, this book includes an expansive interview with David Mitchell as well as a guide to further reading to help students and readers alike explore the works of this tremendously inventive writer.

David Mitchell's Post-Secular World Rose Harris-Birtill, 2019-01-10 Since the publication of *Ghostwritten* in 1999, David Mitchell has rapidly established himself as one of the most inventive and important British novelists of the 21st century. In this landmark study, Rose Harris-Birtill reveals the extent to which Mitchell has created an interconnected fictional world across the full run of his writing. Covering Mitchell's complete fictions from bestselling novels such as *Cloud Atlas* (2004), *The Bone Clocks* (2014) and *number9dream* (2001) to his short stories and his libretti for the operas *Sunken Garden* and *Wake*, this book examines how Buddhist influences inform the ethical worldview that permeates his writing. Using a comparative theoretical model drawn from the Tibetan mandala to map Mitchell's fictional world, Harris-Birtill positions Mitchell as central to a new generation of post-secular writers who re-examine the vital role of belief in galvanizing action amidst contemporary ecological, political and humanitarian crises. *David Mitchell's Post-Secular World* features two substantial new interviews with the author, a chronology of his fictions and a selected bibliography of important critical writings on his work.

The Poetics of Empowerment in David Mitchell's Novels Eva-Maria Windberger, 2023-07-17 *The Poetics of Empowerment in David Mitchell's Novels* combines the investigation of David Mitchell's novels with the introduction of a new critical concept to literary studies: empowerment. Aiming to situate and establish empowerment firmly within the context of literary studies, it offers the first framework and definition for reading fictional texts with the lens of empowerment and applies it in the analysis of discourse, the fictional characters and the role of the reader in Mitchell's novels. Drawing on narratological analysis, cognitive approaches to literature and reader response theory, it features close readings of *Cloud Atlas* (2004), *Black Swan Green* (2006) and *The Thousand Autumns of Jacob de Zoet* (2010) and dissects the author's strategies, poetics and agenda of empowering fiction. This book argues for an inherent indissoluble connection between empowerment and the telling of stories and demonstrates how literary studies can benefit from a serious engagement with empowerment and how such an engagement can stimulate new responses to fiction and put literary studies in conversation with other disciplines. **Close**

Reading with Computers Martin Paul Eve, 2019-06-04 Most contemporary digital studies are interested in distant reading paradigms for large scale literary history This book asks what happens when such telescopic techniques function as a microscope instead The first monograph to bring a range of computational methods to bear on a single novel in a sustained fashion it focuses on the award winning and genre bending *Cloud Atlas* 2004 Published in two very different versions worldwide without anyone taking much notice David Mitchell's novel is ideal fodder for a textual genetic publishing history reflections on micro tectonic shifts in language by authors who move between genres and explorations of how we imagine people wrote in bygone eras Though *Close Reading with Computers* focuses on but one novel it has a crucial exemplary function author Martin Paul Eve demonstrates a set of methods and provides open source software tools that others can use in their own literary critical practices In this way the project serves as a bridge between users of digital methods and those engaged in more traditional literary critical endeavors

A Temporary Future: The Fiction of David Mitchell Patrick O'Donnell, 2015-01-29 Having emerged as one the leading contemporary British writers David Mitchell is rapidly taking his place amongst British novelists with the gravitas of an Ishiguro or a McEwan Written for a wide constituency of readers of contemporary literature *A Temporary Future: The Fiction of David Mitchell* explores Mitchell's main concerns including those of identity history language imperialism childhood the environment and ethnicity across the six novels published so far as well as his protean ability to write in multiple and diverse genres It places Mitchell in the tradition of Murakami Sebald and Rushdie writers whose works explore narrative in an age of globalization and cosmopolitanism Patrick O'Donnell traces the through lines of Mitchell's work from *ghostwritten* to *The Bone Clocks* and with a chapter on each of the six novels charts the evolution of Mitchell's fictional project

Serialization, Commercialization and the Children's Classics Amy Webster, 2024-12-12 An exploration of the serialization of children's classics by contemporary publishers this book digs into the impact of the practice and provides new ways of reading the corpus of British children's literature from the 20th century Amy Webster demonstrates how publishers select texts for their series which texts they omit which outliers are sometimes included and how a core group of works from the golden age of children's literature emerged The text also examines how texts are abridged and transformed from publisher to publisher through close readings of *The Wind in the Willows* and *Alice's Adventures in Wonderland* and how the repackaging of works within a series highlight issues and choices tied to key paratextual elements Analysing data through distant reading and close reading of series from Ladybird Longman Puffin and Walker Illustrated editions this book sheds light on how modern classics series are marked by variation and instability but also a reductive homogeneity Through her use of quantitative and text focused research Webster reveals how commercial motivations have created a gulf between the canonical concepts of the classic and how the term functions as a marketing tool in British children's publishing With notions of what counts as a classic compromised and complicated this book leads the call for a critical approach towards both the term classic and to reading children's classics that acknowledges how they are tied

to the commercial enterprises of the children's book business

Contemporary British Novel Since 2000 James Acheson, 2017-01-17 Focuses on the novels published since 2000 by twenty major British novelists. The Contemporary British Novel Since 2000 is divided into five parts with the first part examining the work of four particularly well known and highly regarded twenty-first century writers: Ian McEwan, David Mitchell, Hilary Mantel, and Zadie Smith. It is with reference to each of these novelists in turn that the terms realist, postmodernist, ahistorical, and postcolonialist fiction are introduced while in the remaining four parts other novelists are discussed and the meaning of the terms amplified. From the start it is emphasised that these terms and others often mean different things to different novelists and that the complexity of their novels often obliges us to discuss their work with reference to more than one of the terms. Also discusses the works of Maggie O'Farrell, Sarah Hall, A.L. Kennedy, Alan Warner, Ali Smith, Kazuo Ishiguro, Kate Atkinson, Salman Rushdie, Adam Foulds, Sarah Waters, James Robertson, Mohsin Hamid, Andrea Levy, and Aminatta Forna.

Science Fiction Literature through History Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics, authors, works, and subgenres written by a distinguished scholar. This encyclopedia deals with written science fiction in all of its forms, not only novels and short stories but also mediums often ignored in other reference books such as plays, poems, comic books, and graphic novels. Some science fiction films, television programs, and video games are also mentioned, particularly when they are relevant to written texts. Its focus is on science fiction in the English language, though due attention is given to international authors whose works have been frequently translated into English. Since science fiction became a recognized genre and greatly expanded in the 20th century, works published in the 20th and 21st centuries are most frequently discussed, though important earlier works are not neglected. The texts are designed to be helpful to numerous readers ranging from students first encountering science fiction to experienced scholars in the field.

Transmodern Perspectives on Contemporary Literatures in English Jessica Aliaga-Lavrijsen, José María Yebra-Pertusa, 2019-03-14 Transmodern Perspectives on Contemporary Literatures in English offers a constructive dialogue on the concept of the transmodern, focusing on the works by very different contemporary authors from all over the world such as Chimamanda Ngozi Adichie, Margaret Atwood, Sebastian Barry, A.S. Byatt, Tabish Khair, David Mitchell, Alice Munroe, Harry Parker, Caryl Phillips, Richard Rodriguez, Alan Spence, Tim Winton, and Kenneth White. The volume offers a thorough questioning of the concept of the transmodern as well as an informed insight into the future formal and thematic development of literatures in English.
