As the American and NATO commander in Europe responsible for 120 000 coalition troops serving in fifty one nations on three continents and at sea he had come a long way since almost leaving the Navy for law school five years after receiving his commission The Accidental Admiral offers an intimate look at the challenges of directing NATO operations in Afghanistan military intervention in Libya and preparation for possible war in Syria as well as worrying about the Balkans cyber threats and piracy all while cutting NATO by a third due to budget reductions by the twenty eight nations of the alliance More than just describing the history of the times Stavridis also shares his insights into the personalities of President Barack Obama Secretary of State Hillary Clinton Secretaries of Defense Robert Gates Leon Panetta and Chuck Hagel Afghan President Hamid Karzai Generals David Petraeus Stanley McChrystal John Allen and many more Known as an innovator and an early adopter of technology and social media Stavridis ability to think outside the box and sail in uncharted waters is unmatched He shares his insights on leadership strategic communications planning and the convergence of threats that will confront the United States and its allies in the near future Stavridis is an advocate of the use of Smart Power which he defines as the balance of hard and soft power He explains that in creating security in the twenty first century it is critical to build bridges not walls and stresses the need to connect international interagency and public private actors to achieve security

Questioning the Carrier Jeff Vandenengel,2023-11-15 Winner of The Navy League s 2024 Alfred Thayer Mahan Award for Literary Achievement The nuclear powered aircraft carrier is naval history s most powerful and versatile warship It is the reason the U S Navy is the predominant force at sea today Throughout its illustrious history the carrier has overcome serious flaws including its expense vulnerability centralization of combat power and its airwing s short range The U S Navy always accepted those flaws because the carrier was the best means of delivering firepower Today s technologies however provide key opportunities for the U S Navy to move beyond the limitations of a carrier centric fleet by redesigning its force structure Questioning the Carrier examines how the U S Navy can embrace the Age of the Missile network the distributed fleet and diversify to develop a fleet that benefits from the aircraft carrier s many strengths without being wholly dependent on them By acting on those opportunities the U S Navy can develop a structure that performs the carrier centric fleet s functions more effectively using a force consisting of more platforms with less total risk and within the same long term budget As adversaries are improving their ability to deter the carrier thus causing its utility to wane the author examines the Navy s past successes to show how it can overcome institutional resistance to change and continue to rule the seas *Joint Force Quarterly* ,1993

Admiral James Stavridis Stanley D M Carpenter,2024-04-04 The biography of Admiral James George Stavridis provides a look at the naval admiral leader and commentator From his accomplishments in the U S Navy and on to his time as Supreme Allied Commander Europe for NATO Stanley Carpenter presents the most detailed picture yet of the familiar Admiral James Stavridis Continuing on to Stavridis s post Navy career this book reveals the man who in and out of uniform has exemplified an ideal of service both in command and as a retired expert on world affairs The child of Greek
