What to expect with contracts and billing This guide is a second in a series which address older wiring in homes As a Master Electrician and owner of Kuhlman Electric in Massachusetts and New Hampshire Jesse Kuhlman sees far too many customers who have no idea about how having their electrical system updated should work and can be completely misled by electricians who don't have their best interests in mind After hearing from far too many homeowners that The last electrician said i will have to gut some walls to run the new wiring Kuhlman knew something needed to be done The result is this series Kuhlman's goal with these guides as with all aspects of his business is EDUCATION of the customer first and foremost If you are educated to the process from estimate to install to final billing think about what a great advantage that will give you while getting estimates meeting with electrical contractors And honestly it should help the electrical contractor meeting you as well After reading this guide you will be able to distinguish the difference between the legit electricians who do this work all the time and the ones who don't

IMPORTANT NOTE Many of the processes of the new wiring installation materials used contracts billing estimating are the same it doesn't matter which kind of old wiring you have If you have purchased A Homeowner's Guide to Knob and Tube Wiring Replacement the information about new wiring installation materials used contracts billing estimating in A Homeowner's Guide to BX Wiring Replacement is the same
