David Talbot The Saturn Myth:

Myths Unveiled Malik Bade, 2025-02-13 People's belief on faith and religion in fact comes by an accident of geography ingrained cultural heritages which shapes what life is viewed for the many millions to billions around the world. However, any critical thinker equipped with the means to delve deeply into the origins of many of the most well-known religious concepts would recognise a recurrent pattern and theme. From the so-called Pagans to our contemporary worldviews, the same concepts are applied in various manners. Upon careful reflection, reading and investigation of sources and reference materials from all directions, it became evident that many of the texts were not based on actual events. When you truly go into its origins, however, you will find that it comes from a higher spiritual meaning that describes esoteric messages. Such are observations of the sky, planets, stars, and time zones, which all play a part in the many stories that were circulated and burrowed throughout the course of history. Our current system hasn't worked for decades; on the contrary, it's time to reconsider and piece things together. *The Matrix & The Forbidden Knowledge* Malik Bade, 2023-10-07 The most important secrets that have been kept from the general public will now be exposed in this book. In this publication, I uncover a myriad of mysteries and uncomfortable truths about the world we live in. It's time to get up and do something revolutionary to stop the evil that has been torturing us for decades. This book tells you everything you need to know about the universe, from secret societies and hidden agendas to extraordinary phenomena in the most in-depth and evidential way possible. It also gives you warnings about both upcoming and past events. **The Petroglyphs of Mu** Carole Nervig, 2022-08-09 Shows how the archetypal symbols of the Pohnpaid petroglyphs have exact counterparts in other ancient cultures throughout the world. Provides evidence that Pohnpaid is closely related to yet predates neighboring Nan Madol. Includes hundreds of Pohnpaid petroglyphs and stone circle photos many never before seen. While residing on the small Pacific island of Pohnpei in the 1990s, Carole Nervig discovered that a recent brush fire had exposed hundreds of previously unknown petroglyphs carved on gigantic boulders. This portion of the megalithic site called Pohnpaid was unknown even to Pohnpei's state historic preservation officer. The petroglyphs were unlike others from Oceania, so Nervig began investigating and comparing them with petroglyphs and symbols from around the world. In this fully illustrated exploration, Nervig documents her discoveries on Pohnpei, revealing how the archetypal symbols of the Pohnpaid petroglyphs have exact counterparts in other ancient cultures and universal motifs throughout the world, including the Australian Aborigines, the Inca in Peru, the Vedic civilization of India, early Norse runes, and Japanese symbols. She provides evidence that Pohnpaid is closely related to yet predates neighboring Nan Madol and shows how Pohnpaid was an outpost of the sunken Kahnimueiso, a city of the now vanished civilization of Mu or Lemuria. Discussing the archaeoastronomical function of the Pohnpaid stones, the author examines how many of the glyphs symbolize celestial phenomena and clearly reveal how their creators were sky watchers with a sophisticated understanding of astronomy, geophysics, geomancy, and engineering. She shows how the scientific concepts depicted in the petroglyphs

reveal how the citizens of Mu had a much deeper understanding of the living Earth than we do which gave them the ability to manipulate natural forces both physically and energetically Combining archaeological evidence with traditional oral accounts Nervig reveals Pohnpaid not only as a part of a geodetic network of ancient sacred sites and portals but also as a remnant of the now submerged but once enlightened Motherland of Mu

Walk in the Light Eugene Sierras, 2021-11-11 The essential idea of the graphic novel Walk in the Light is simple It is that everything in Creation is connected by a force Many people have grasped and understood this fact but it has taken the writings of many others in many different fields of study through human history to understand this Those fields those disciplines those sources include ancient scriptures the works of mystics and the endeavors of no nonsense scientists who seek to understand the world and universe It includes the experience of ancient peoples and cultures who have bequeathed us their traditions in what we today refer to as mythology It includes those thinkers who can study and develop more deeply a better understanding of our universe and our roles in it by using all of these disciplines in an interdisciplinary synthesis
