Designing Peace Institutional Innovations Societies:

Designing Peace Neophytos Loizides, 2016-01-08 Why do some societies choose to adopt federal settlements in the face of acute ethnic conflict while others do not Neophytos Loizides examines how acrimoniously divided Cyprus could reunify by adopting a federal and consociational arrangement inspiring similar attempts in its region Loizides asserts that institutional innovation is key in designing peace processes Analyzing power sharing in Northern Ireland the return of displaced persons in Bosnia and the preparatory mandate referendum in South Africa he shows how divided societies have implemented novel solutions despite conditions that initially seemed prohibitive Turning to Cyprus he chronicles the breakthrough that led to the exhumations of the missing after 2003 and observes that a society's choice of narratives and institutions can overcome structural constraints While Loizides points to the relative absence of successful federal and consociational arrangements among societies evolving from the post Ottoman space he argues that neither elites nor broader societies in the region must be held hostages to the past To effect lasting and positive change Loizides encourages stakeholders in divided societies to be prepared to identify redesign and implement innovative new institutions Examining successful peace mediations and identifying the shared experience and commonalities between Cyprus and other divided societies promises not only to inform the tackling of the Cyprus problem but also to provide transferable knowledge with broader implications for the fields of peace studies and conflict resolution

Defensive Federalism Ferran Requejo, Marc Sanjaume-Calvet, 2022-09-16 Defensive Federalism presents an original contribution to the field of federalism and multinational democracies exploring the concept of defensive federalism as a protection of self government against the tyranny of the majority The empirical evidence on federal and regional polities often shows critical imbalances in the territorial division of powers beyond what has been formally established in the constitutional rules This volume highlights the rights institutions decision making processes and procedural rules that can protect and develop the practical political economic and cultural powers of federated and regional entities especially those linked to territorial national minorities The authors focus on federalism as a safeguard of self rule as well as a set of institutional and procedural rules to avoid the territorial dimension of the tyranny of the majority They answer two fundamental questions how is it possible to design new stable and fairer federal agreements between national minorities and majorities where there is no single ideal solution Is there a need for a new kind of defensive federal model for

approaching national pluralism in liberal democracies This book will be of great interest to students and scholars of federalism national diversity and democracy as well as policymakers and practitioners in both public and private institutions Chapter 8 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution 4.0 license available at <http://www.taylorfrancis.com>

Ireland, 2020-04-22 The first of its kind The Handbook of Collective Violence covers a range of contexts in which collective violence occurs bringing together international perspectives from psychology criminology and sociology into one complete volume There have been significant advances made in the last 25 years regarding how collective violence is conceptualised and understood with a move away from focusing on solely individual forms of violence toward examining and understanding violence that can occur within groups This handbook presents some of the most interesting topics within the area of collective violence drawing upon international expertise and including some of the most well known academics and practitioners of our generation Structured into four parts understanding war terrorism public order and organized violent crime and gang and multiple offender groups this volume provides academics and practitioners with an up to date resource that covers core areas of interest and application Accessibly written it is ideal for both academics and policymakers alike capturing developments in the field and offering a deep theoretical insight to enhance our understanding of how such collective violence evolves alongside practical suggestions for management prevention and intervention The Forum of Federations Handbook of Federal Countries 2020 Ann Griffiths, Rupak Chattopadhyay, John Light, Carl Stieren, 2020-10-24 Federal models of government have shaped history and demonstrated how diverse people can live together and govern together in relative harmony The Forum of Federations Handbook of Federal Countries 2020 builds on the previous 2005 edition and offers a much needed update to this signature resource in comparative federalism Outlining every federal country in the world each chapter provides a brief yet comprehensive overview of the history of federalism in its specific country the constitutional nature of federalism and recent historical dynamics As new countries have joined the Federal ranks this handbook brings readers up to speed offering an authoritative look at both the older federal countries as well as new federal countries like Nepal The Forum of Federations Handbook of Federal Countries 2020 is an essential resource for academics researchers university students libraries history and governance teachers politicians and civil servants and casual observers of federalism Conspiracy Theory in Turkey Julian de Medeiros, 2018-05-21 Turkey is witnessing an era of political upheaval From the Gezi protests in 2013 to the attempted military coup of 2016 the concept of post truth plays a significant role in Turkish politics today In the chaos of conspiracy theories hidden enemies and post coup purges the unreal merges with the real fuelling political repression and anti government sentiment alike Julian de Medeiros here analyses the many unfolding challenges of Erdogan's New Turkey and shows how a fixedly Turkish style of post truth has taken root Examining the relationship between conspiracy theory and post truth this book sheds light on the strategies of

political paranoia that threaten to undermine the success of Turkey's democratic model De Medeiros argues that both the Gezi protests and the failed coup attempt need to be considered alongside the emerging anti democratic and conspiratorial tendencies of an increasingly authoritarian Turkish government As Turkish democracy continues to evolve with breath taking speed and unpredictable outcomes de Medeiros shows how the rise of paranoid politics in Turkey constitutes part of a global trend towards post truth narratives He situates Turkish democracy as subject to a global resurgence of strongman leadership and antagonistic populism Conspiracy Theory in Turkey presents the very first critical account of the Turkish model of a post truth politics Through a counter intuitive analysis of conspiracy theory and paranoid politics the book disentangles the real from the unreal and chronicles the emergence of post truth in Turkey today

Mediating Power-Sharing Feargal Cochrane, Neophytos Loizides, Thibaud Bodson, 2018-01-12 This book focuses on the design and operation of power sharing in deeply divided societies Beyond this starting point it seeks to examine the different ways in which consociational institutions emerge from negotiations and peace settlements across three counter intuitive cases post Brexit referendum Northern Ireland the Brussels Capital Region and Cyprus Across each of the chapters the analysis assesses how the design or mediation of these various forms of power sharing demonstrate similarity difference and complexity in how consociationalism has been conceived of and operated within each of these contexts Finally a key objective of the book is to explore and evaluate how ideas surrounding power sharing have evolved and changed incrementally within each of the empirical contexts The unifying argument within the book is that power sharing has to have the capacity to adapt to changing political circumstances and that this can be achieved through the interplay of formal and informal micro level refinements to these institutions and the procedures that govern them that allow such institutions to evolve over time in ways that increase their utility as conflict
