Detroit I Do Mind Dying A Study In Urban Revolution

Joel P. Rhodes

Detroit I Do Mind Dying A Study In Urban Revolution:

Detroit, I Do Mind Dying Dan Georgakas, Marvin Surkin, 1998 This new South End Press edition makes available the full text of this out of print classic along with a new foreword by Manning Marable interviews with participants in DRUM and reflections on political developments over the past three decades by Georgakas and Surkin

Detroit, I Do Mind Dying Dan Georgakas, Marvin Surkin, 1975 Detroit I Do Mind Dying tracks the extraordinary development of the Dodge Revolutionary Union Movement and the League of Revolutionary Black Workers as they became two of the landmark political organizations of the 1960s and 1970s It is widely heralded as one the most important books on the black liberation movement Marvin Surkin received his PhD in political science from New York University and is a specialist in comparative urban politics and social change He worked at the center of the League of Revolutionary Black Workers in Detroit Dan Georgakas is a writer historian and activist with a long time interest in social movements He is the author of My Detroit Growing up Greek and American in Motor City

Breaking the Spell Robé, Chris, 2017-05-01 Breaking the Spell offers the first full length study that charts the historical trajectory of anarchist inflected video activism from the late 1960s to the present Two predominant trends emerge from this social movement based video activism 1 anarchist inflected processes increasingly structure its production distribution and exhibition practices and 2 video does not simply represent collective actions and events but also serves as a form of activist practice in and of itself from the moment of recording to its later distribution and exhibition Video plays an increasingly important role among activists in the growing global resistance against neoliberal capitalism As various radical theorists have pointed out subjectivity itself becomes a key terrain of struggle as capitalism increasingly structures and mines it through social media sites cell phone technology and new flexible work and living patterns As a result alternative media production becomes a central location where new collective forms of subjectivity can be created to challenge aspects of neoliberalism Chris Rob s book fills in historical gaps by bringing to light unexplored video activist groups like the Cascadia Forest Defenders eco video activists from Eugene Oregon Mobile Voices Latino day laborers harnessing cell phone technology to combat racism and police harassment in Los Angeles and Outta Your Backpack Media indigenous youth from the Southwest who use video to celebrate their culture and fight against marginalization This groundbreaking study also deepens our understanding of more well researched movements like AIDS video activism Paper Tiger Television and Indymedia by situating them within a longer history and wider context of radical video activism

The Internal Colony Sam Klug, 2025-01-14 An explication of how global decolonization provoked profound changes in American political theory and practice In The Internal Colony Sam Klug reveals the central but underappreciated importance of global decolonization to the divergence between mainstream liberalism and the Black freedom movement in postwar America Klug reconsiders what has long been seen as a matter of primarily domestic policy in light of a series of debates concerning self determination postcolonial economic development and the meanings of colonialism and decolonization These debates deeply

influenced the discord between Black activists and state policymakers and formed a crucial dividing line in national politics in the 1960s and 1970s The result is a history that broadens our understanding of ideological formation particularly how Americans conceptualized racial power and political economy by revealing a much wider and more dynamic network of influences Linking intellectual political and social movement history The Internal Colony illuminates how global decolonization transformed the terms of debate over race and social class in the twentieth century United States

A Working People Steven A. Reich, 2013-09-12 In this book historian Steven A Reich examines the economic political and cultural forces that have beaten and built America's black workforce since Emancipation From the abolition of slavery through the Civil Rights Movement and Great Recession African Americans have faced a unique set of obstacles and prejudices on their way to becoming a productive and indispensable portion of the American workforce Repeatedly denied access to the opportunities all Americans are to be afforded under the Constitution African Americans have combined decades of collective action and community mobilization with the trailblazing heroism of a select few to pave their own way to prosperity This latest installment of the African American History Series challenges the notion that racial prejudices are buried in our nation's history and instead provides a narrative connecting the struggles of many generations of African American workers to those felt the present day Reich provides an unblinking account of what being an African American worker has meant since the 1860s alluding to ways in which we can and must learn from our past for the betterment of all workers however marginalized they may be

A Working People: A History of African American Workers Since Emancipation is as factually astute as it is accessibly written a tapestry of over 150 years of troubled yet triumphant African American labor history that we still weave today

The Voice of Violence Joel P. Rhodes, 2001-04-30 The tide of 1960s political upheaval while mistaken at the time by some as a unified assault against America carried out by revolutionaries at home and abroad was actually hundreds of locally constructed expressions of political discourse reflecting the influences of race class gender and local conditions on each unique group of practitioners This is a comparative study of how radicals at the local level staged displayed and ultimately narrated symbolic acts of performative violence against the symbols of the American system The term performative violence refers to a method of public protest whereby participants create the conditions in which their violent actions become a political text a powerful symbol with a strong historical precedent Recognizing the textuality of history this interdisciplinary examination deconstructs the performative violence within its historically specific and socially constructed contexts using four representative case histories of late 1960s and early 1970s activism These are the African American rioters in Kansas City the Black Panther Party in Detroit campus radicals at Kansas State University and activists at the University of Kansas Rather than focusing on the major clashes of the Vietnam era this book contributes to recent scholarship on the 1960s which has attempted to offer a more textured analysis of the era's activism particularly its political violence based on more local studies

American Reckoning Christian G. Appy, 2016-01-05 Christian G Appy explores how

the Vietnam war was managed reported packaged and consumed the myths that were created why decisions were made who if anyone got left behind America s accountability for atrocities and how the real Vietnam syndrome has played out in popular culture and our foreign policy He reports across newspaper accounts TV coverage Pentagon stats and position papers memoirs movies novels and more to create a completely fresh account of the meaning of the war asking the hard questions

The Struggle for Black Equality Harvard Sitkoff,2008-09-30 The Struggle for Black Equality is a dramatic memorable history of the civil rights movement Harvard Sitkoff offers both a brilliant interpretation of the personalities and dynamics of civil rights organizations and a compelling analysis of the continuing problems plaguing many African Americans With a new foreword and afterword and an up to date bibliography this anniversary edition highlights the continuing significance of the movement for black equality and justice

New Working-Class Studies John Russo,Sherry Lee Linkon,2018-08-06 We put the working class in all its varieties at the center of our work The new working class studies is not only about the labor movement or about workers of any particular kind or workers in any particular place even in the workplace Instead we ask questions about how class works for people at work at home and in the community We explore how class both unites and divides working class people which highlights the importance of understanding how class shapes and is shaped by race gender ethnicity and place We reflect on the common interests as well as the divisions between the most commonly imagined version of the working class industrial blue collar workers and workers in the new economy whose work and personal lives seem at first glance to place them solidly in the middle class from the Introduction In John Russo and Sherry Lee Linkon s book contributors trace the origins of the new working class studies explore how it is being developed both within and across fields and identify key themes and issues Historians economists geographers sociologists and scholars of literature and cultural studies introduce many and varied aspects of this emerging field Throughout they consider how the study of working class life transforms traditional disciplines and stress the importance of popular and artistic representations of working class life

Metropolis Robert Zecker,2007-12-30 Ever since the rise of mass culture the idea of The City has played a central role in the nation s imagined landscape While some writers depict the city as a site of pleasure and enjoyment the thrills provided there are still generally of an illicit nature and it is this darker strain of urban fiction one that illuminates many of the larger fears and anxieties of America at large that this book addresses From The Wire s Baltimore to Martin Scorsese s New York from the Newark of Philip Roth and The Sopranos to Jeffrey Eugenides s Detroit The City is everywhere and everywhere proclaiming on the rise and Around 1900 writers for Harper s Century and other magazines took middle class Americans on safari through Little Italy and the Jewish Lower East Side Later at the dawn of the talkies one of the most popular genres was the gangster film through which the city was often portrayed as a powerful force that sent poor souls to their doom With the urban disturbances of the 1960s popular culture took another look at the city and decided that from Detroit to Watts to Harlem the problem had a different face Blaxploitation classics such as Shaft and Fort Apache the Bronx

as well as police and crime films of the 60s and 70s offered a cinematic exclamation point to the famous Daily News headline Ford to New York Drop Dead Later filmmakers offered a more nuanced view of the city with Scorsese and Coppola paying homage to an old neighborhood of wise guys and goodfellas and Woody Allen offering the city as a home of urban aesthetes Meanwhile on television crime shows from The Streets of San Francisco to NYPD Blue Cops and all the CSI programs have for decades rooted their separate identities in the crime ridden city itself Yesterday s foreign threat to the body politic is today s jaded suburbanite and this work also considers the current development of the cyber city where urban exiles use their computers to re imagine the cities of their youth as safe warm places where we never locked our doors The City continues to thrill and repulse and even the Internet once again reduces the mean streets to a titillating story arc

Yeah, reviewing a ebook **Detroit I Do Mind Dying A Study In Urban Revolution** could mount up your close links listings. This is just one of the solutions for you to be successful. As understood, realization does not suggest that you have fantastic points.

Comprehending as capably as understanding even more than new will find the money for each success. neighboring to, the declaration as competently as perspicacity of this Detroit I Do Mind Dying A Study In Urban Revolution can be taken as skillfully as picked to act.
