The Palgrave Handbook of Urban Ethnography Italo Pardo, Giuliana B. Prato, 2017-11-14 These ethnographically based studies of diverse urban experiences across the world present cutting edge research and stimulate an empirically grounded theoretical reconceptualization The essays identify ethnography as a powerful tool for making sense of life in our rapidly changing complex cities They stress the point that while there is no need to fetishize fieldwork or to view it as an end in itself its unique value cannot be overstated These active engaged researchers have produced essays that avoid abstractions and generalities while engaging with the analytical complexities of ethnographic evidence Together they prove the great value of knowledge produced by long term fieldwork to mainstream academic debates and more broadly to society

The Digital Street Jeffrey Lane, 2019 The social impact of the Internet and new digital technologies is irrefutable especially for adolescents It is simply no longer possible to understand coming of age in the inner city without an appreciation of both the face to face and online relations that structure neighborhood life The Digital Street is the first in depth exploration of the ways digital social media is changing life in poor minority communities Based on five years of ethnographic observations dozens of interviews and analyses of social media content Jeffrey Lane illustrates a new street world where social media transforms how young people experience neighborhood violence and poverty Lane examines the online migration of the code of the street and its consequences from encounters between boys and girls to the relationship between the street and parents schools outreach workers and the police He reveals not only the risks youths face through surveillance or worsening violence but also the opportunities digital social media use provides for mitigating danger Granting access to this new world Jeffrey Lane shows how age old problems

Drake,Rod Earle,J. Sloan,2016-01-12 The Palgrave Handbook of Prison Ethnography provides an expansive overview of the challenges presented by qualitative and particularly ethnographic enquiry The chapters reflect upon the means by which ethnographers aim to gain understanding make sense of what they learn and the way they represent their finished work The Handbook offers urgent insights relevant to current trends in the growth of imprisonment worldwide In an era of mass incarceration human centric ethnography provides an important counter to quantitative analysis and the audit culture on which prisons are frequently judged The Handbook is divided into four parts Part I About Prison Ethnography assesses methodological theoretical and pragmatic issues related to the use of ethnographic and qualitative enquiry in prisons Part II Through Prison Ethnography considers the significance of ethnographic insights in terms of wider social or political concerns Part III Of Prison Ethnography analyses different aspects of the roles ethnographers take and how they negotiate their research settings Part IV For Prison Ethnography includes contributions that convincingly extend the value of prison ethnography beyond the prison itself Bringing together contributions by some of the world s leading scholars in criminology and prison studies this authoritative volume maps out new directions for future research It will be an indispensable resource for practitioners students academics and researchers who use qualitative social research methods to further their understanding of prisons

An Ethnography of Urban Exploration Kevin P. Bingham,2020-10-01 This book analyses a unique leisure world that has been built around a newly emerging phenomenon known as urban exploration the art of exploring human made environments which are generally abandoned or hidden from sight of the public eye Drawing on Michel Foucault s concept of heterotopia Bingham provides a detailed and critical investigation of urban exploration as a form of leisure that is about the coming together of drifting performers who in their celebration of rebellion and deviance are determined to find a sense of meaning and belonging The research considers the influence of consumer capitalism on urban explorers and the wider social economic and political context that shapes ideas of belonging and identity in the twenty first century By doing this the book analyses urban exploration as an activity that has emerged in a time when human ideas about culture individuality and community have transformed and solid modernity is gradually disintegrating around us This multi and interdisciplinary work will appeal to people with an interest in abnormal or deviant leisure as well as academics from sociology anthropology social geography leisure studies cultural studies sport and recreation and tourism The Next Generation Richard Alba,Mary C. Waters,2011-04-04 The Next Generation brings together top immigration scholars to explore how the integration of immigrants affects the generations that come after The original essays explore the early beginnings of the second generation in the United States and Western Europe showing that variations in second generation trajectories are of the utmost importance for the future for they will determine the degree to which contemporary immigration will produce either durable

ethno racial cleavages or mainstream integration *Young Black Street Masculinities* Brendan King, 2022-02-12 This book describes how young Black men on a disadvantaged housing estate in London navigate the estate's expectations for their behaviour as they operate within a street code that endorses violence knife carrying and challenging masculinity This street code informs the men's masculine identities by promoting values of misogyny violence and the possession of expensive material objects while subduing any performance or features deemed as weak or feminine Chapters detail the daily pressure on young men to gain respect and perform the estate's street code while also providing examples of young men who have escaped or rejected its influence King also outlines how youth workers can support those trapped by the estate's street code by embodying personalised or caring masculinity features that seek to transform the dominant masculinity *Growing Up Muslim in Europe and the United States* Medhi Bozorgmehr, Philip Kasinitz, 2018-07-27 This volume brings together scholarship from two different and until now largely separate literatures the study of the children of immigrants and the study of Muslim minority communities in order to explore the changing nature of ethnic identity religious practice and citizenship in the contemporary western world With attention to the similarities and differences between the European and American experiences of growing up Muslim the contributing authors ask what it means for young people to be both Muslim and American or European how they reconcile these at times conflicting identities how they reconcile the religious and gendered cultural norms of their immigrant families with the more liberal ideals of the western societies that they live in and how they deal with these issues through mobilization and political incorporation A transatlantic research effort that brings together work from the tradition in diaspora studies with research on the second generation to examine social cultural and political dimensions of the second generation Muslim experience in Europe and the United States this book will appeal to scholars across the social sciences with interests in migration diaspora race and ethnicity religion and integration
