What Is Case Management?

Case management is a service offered by medical professionals to help individuals and their family caregivers manage their health needs. Case management professionals seek to assist patients to receive the care they need to manage their diagnosis, illness or injury. They may also provide the support necessary to connect individuals to right doctors, resources, education, and services.

Who Are Case Managers?

Case managers are healthcare professionals who work with you and your family or caregivers to help you understand and manage your health and care needs.

Case managers can be registered nurses, social workers, or other medical professionals.

Case managers can be called by different names such as Discharge Planners, Life Coaches, Navigators, Population Health Managers, Social Workers, or Care Managers. They all work to help individuals reach their desired health goal.
