Chemistry Atoms First:

Chemistry Atoms First 2e Paul Flowers, Klaus Hellmut Theopold, Richard Langley, Edward J. Neth, William R. Robinson, 2019-02-14 Chemistry Atoms First 2e is a peer reviewed openly licensed introductory textbook produced through a collaborative publishing partnership between OpenStax and the University of Connecticut and UConn Undergraduate Student Government Association This text is an atoms first adaptation of OpenStax Chemistry 2e The intention of atoms first involves a few basic principles first it introduces atomic and molecular structure much earlier than the traditional approach and it threads these themes through subsequent chapters This approach may be chosen as a way to delay the introduction of material such as stoichiometry that students traditionally find abstract and difficult thereby allowing students time to acclimate their study skills to chemistry Additionally it gives students a basis for understanding the application of quantitative principles to the chemistry that underlies the entire course It also aims to center the study of chemistry on the atomic foundation that many will expand upon in a later course covering organic chemistry easing that transition when the time arrives

Chemistry Julia Burdge, 2014-01-10 The atoms first approach provides a consistent and logical method for teaching general chemistry This approach starts with the fundamental building block of matter the atom and uses it as the stepping stone to understanding more complex chemistry topics Once mastery of the nature of atoms and electrons is achieved the formation and properties of compounds are developed Only after the study of matter and the atom will students have sufficient background to fully engage in topics such as stoichiometry kinetics equilibrium and thermodynamics Thus the Atoms First method empowers instructors to present the most complete and compelling story of general chemistry Far from a simple re ordering of topics this is a book that will truly meet the needs of the growing atoms first market **General**

atoms first experts and follows historical beliefs in teaching chemistry concepts based and real experimental data first This approach distinguishes this text in the market based whereby other authors teach theory first followed by experimental data 032180483X 9780321804839 General Chemistry Atoms First Plus MasteringChemistry with eText Access Card Package Package consists of 0321809262 9780321809261 General Chemistry Atoms 0321834186 9780321834188 MasteringChemistry with Pearson eText ValuePack Access Card for General Chemistry Atoms First
