You can change the sequence of the semesters per the needs or interests of your student. Materials for each semester are independent of one another to allow flexibility. Semester 1: Earth. Blending a creationism perspective of history with definitions of terms and identification of famous explorers/scientists etc. This book gives students an excellent initial knowledge of people and places, encouraging them to continue their studies in depth. Semester 2: Chemistry. Chemistry is an amazing branch of science that affects us every day, yet few people realize it or even give it much thought. Without chemistry, there would be nothing made of plastic, there would be no rubber tires, no tin cans, no televisions, no microwave ovens, or something as simple as wax paper. This book presents an exciting and intriguing tour through the realm of chemistry as each chapter unfolds with facts and stories about the discoveries of discoverers. Find out why pure gold is not used for jewelry or coins. Join Humphry Davy as he made many chemical discoveries and learn how they shortened his life.
