**Defending the Flock: a Security Guide for Church Safety Directors** Kris Moloney, 2017-12-12 This Church Safety and Security Ministry Guide is intended to help Safety Directors of small to medium size churches with training their volunteer teams This guide was developed by painstakingly researching nationally recognized publications and by consulting with experts in church security crime prevention emergency medical response fire safety pastoral protection security and a number of other fields of study It contains chapters on everything from Active Shooter Neutralization to Protecting Children from Sexual Abuse

What They Don't Tell You about Church Safety Bryan Donihue, 2014-05-06 On December 10 2007 there was a horrific mass murder at a Colorado based youth missions training center and the church that funded that center On that fateful Sunday morning at Youth With a Mission and New Life Church a man with a grudge set out to kill as many people as possible In total he succeeded in killing four people and wounding several His rampage was only stopped by a volunteer at New Life Church who happened to be on the church's security team Because she was armed that security person was able to defend the church and stop a mass murderer If she and her companions weren't there the body count would likely have been higher in this 10 000 member mega church There are many books about church security available Those books contain great information about crimes in the church and making the church more secure With everything from parking lot lighting to safe selection and groundskeeping to internal cameras those books are designed to teach churches how to do corporate security All of them include emergency planning and all of them treat the church as any other business when it comes to security This is NOT one of those books Instead Bryan looks at church safety from a different perspective as a ministry of the church Bryan started the Safety Team Ministry at Frontline Community Church in Grand Rapids Michigan from scratch With only some published materials available and a background in corporate security and police work Bryan created the typical church security team with typical struggles and issues After much heartache and even more prayer Bryan believed that church security was the wrong direction Bryan realized that the missing ingredient was MINISTRY and the culture of the corporate security practices and standards played a major role in the shortfall This book is about the struggle and process of creating a church safety ministry Instead of being rehashing corporate security concepts this book focuses on what others don't tell you Topics include hiring for personality working with the church board working with other ministries and having the right tools and mindset to be a ministry The final chapter is a step by step guide to starting a church safety ministry in your own church This book also includes links to valuable resources including documentation for a church safety team other websites for information and other recommended books This book is written for anyone who is interested in starting a safety ministry at their church anyone who currently leads a safety ministry and church staff and pastors who are interested in what church safety should be all about This book is designed to open up a conversation about modern day church safety and hopefully

Jeanie Garrett, 2021-08-17 How do we reconcile the need to create safe places for worship and community with a theology of welcome and inclusion Most houses of worship know they need a safety plan but leadership often resists the tough conversations of restricting access and locking more doors This seems contrary to proclaiming that church is a welcoming open place for all There are books manuals guides and articles advising how to create a safety plan for faith based institutions but none of them wrestles with the theological questions that come up during the process By exploring these questions faith based institutions of all kinds can better tackle the challenges of creating a safety plan with more thought insight and confidence Understanding that incidents of violence are impossible to ignore candor about the firearms debate will allow for deeper empathy and clearer direction in decision making Throughout this book the author encourages leadership to reconcile having ultimate faith in God with taking reasonable means to protect ourselves and those in our care
