Digitizing Identities Networked Routledge Technology:

Digitizing Identities Irma van der Ploeg, Jason Pridmore, 2015-11-19 This book explores contemporary transformations of identities in a digitizing society across a range of domains of modern life As digital technology and ICTs have come to pervade virtually all aspects of modern societies the routine registration of personal data has increased exponentially thus allowing a proliferation of new ways of establishing who we are Rather than representing straightforward progress however these new practices generate important moral and socio political concerns While access to and control over personal data is at the heart of many contemporary strategic innovations domains as diverse as migration management law enforcement crime and health prevention e governance internal and external security to new business models and marketing tools we also see new forms of exclusion exploitation and disadvantage emerging *Handbook on Governmentality* William

Walters, Martina Tazzioli, 2023-01-20 The Handbook on Governmentality discusses the development of an interdisciplinary field of research focusing on Michel Foucault's post foundationalist concept of governmentality and the ways it has been used to write genealogies of modern states the governance of societal problems and the governance of the self **Imagined**

Futures in Science, Technology and Society Gert Verschraegen, Frédéric Vandermoere, Luc Braeckmans, Barbara Segart, 2017-04-07 Imagining forecasting and predicting the future is an inextricable and increasingly important part of the present States organizations and individuals almost continuously have to make decisions about future actions financial investments or technological innovation without much knowledge of what will exactly happen in the future Science and technology play a crucial role in this collective attempt to make sense of the future Technological developments such as nanotechnology robotics or solar energy largely shape how we dream and think about the future while economic forecasts gene tests or climate change projections help us to make images of what may possibly occur in the future This book provides one of the first interdisciplinary assessments of how scientific and technological imaginations matter in the formation of human ecological and societal futures Rooted in different disciplines such as sociology philosophy and science and technology studies it explores how various actors such as scientists companies or states imagine the future to be and act upon that imagination Bringing together case studies from different regions around the globe including the electrification of German car infrastructure or genetically modified crops in India Imagined Futures in Science Technology and Society shows how science and technology create novel forms of imagination thereby opening horizons toward alternative futures By developing central aspects of the current debate on how scientific imagination and future making interact this timely volume provides a fresh look at the complex interrelationships between science technology and society This book will be of interest to postgraduate students interested in Science and Technology Studies History and Philosophy of Science Sociology Cultural Studies Anthropology Political Sciences Future Studies and Literary Sciences Mediated Bordering Sabrina

Ellebrecht, 2020-03-03 The external border of the EU remains under permanent construction Sabrina Ellebrecht engages

with two of its primary building sites the European Border Surveillance System Eurosur and the Refugee Boat She analyzes how the function and quality of the EU's current political border is crafted shaped produced and eventually stabilized through these two mediators Eurosur and the Refugee Boat mediate a level of Europeanization which has hitherto and would otherwise have been impossible While Eurosur mobilizes the limits of border policing in various ways the Refugee Boat functions as the vacillating European Other to legitimize both control and humanitarian interventions The study shows the specific if not constitutive ambivalences of EU border policies and explores the emergence of viapolitics Forensic

Genetics in the Governance of Crime Helena Machado,Rafaela Granja,2020-01-28 This open access book uses a critical sociological perspective to explore contemporary ways of reformulating the governance of crime through genetics Through the lens of scientific knowledge and genetic technology Machado and Granja offer a unique perspective on current trends in crime governance They explore the place and role of genetics in criminal justice systems and show how classical and contemporary social theory can help address challenges posed by social processes and interactions generated by the uses meanings and expectations attributed to genetics in the governance of crime Cutting edge methods and research techniques are also integrated to address crucial aspects of this social reality Finally the authors examine new challenges emerging from recent paradigm shifts within forensic genetics moving away from the construction of evidence as presented in court to the production of intelligence guiding criminal investigations **Social Dimensions of Privacy** Beate Roessler,Dorota

Mokrosinska,2015-06-26 Written by a select international group of leading privacy scholars Social Dimensions of Privacy endorses and develops an innovative approach to privacy By debating topical privacy cases in their specific research areas the contributors explore the new privacy sensitive areas legal scholars and political theorists discuss the European and American approaches to privacy regulation sociologists explore new forms of surveillance and privacy on social network sites and philosophers revisit feminist critiques of privacy discuss markets in personal data issues of privacy in health care and democratic politics The broad interdisciplinary character of the volume will be of interest to readers from a variety of scientific disciplines who are concerned with privacy and data protection issues **The Oxford Handbook of**

Superdiversity Fran Meissner,Nando Sigona,Steven Vertovec,2023 Superdiversity is one of the most prominent contemporary concepts advancing our current understanding of international migration and its societal outcomes This Handbook brings together chapters that link the numerous social scientific debates approaches and methodologies developed in light of superdiversity The handbook offers students educators researchers and practitioners a much sought after compendium of major advances made in studying complex transformations in light of superdiversity **Science, Risk, and**

Policy Andrew J. Knight,2016-04-14 For decades experts and the public have been at odds over the nature and magnitude of risks and how they should be mitigated through policy Experts argue that the fears of the public are irrational and that public policy should be based on sound science The public on the other hand is skeptical of experts and believe policy should

represent their interests How do policy analysts make sense of these competing views Science Risk and Policy answers this question by examining how people evaluate evidence how science is conducted and how a multi disciplinary framework to risk can inform policy by bridging the gap between experts and the public This framework is then applied to four case studies pesticides genetically engineered foods climate change and nuclear power By tracing the history of the science policies and regulations and evaluating arguments made about these risks Andrew J Knight provides a guide to understand how experts and the public view risks

Research Handbook on International Migration and Digital Technology McAuliffe, Marie, 2021-12-07 This forward looking Research Handbook showcases cutting edge research on the relationship between international migration and digital technology It sheds new light on the interlinkages between digitalisation and migration patterns and processes globally capturing the latest research technologies and data sources Featuring international migration in all facets from the migration of tech sector specialists through to refugee displacement leading contributors offer strategic insights into the future of migration and mobility

[The Culture of Surveillance](#) David Lyon, 2018-05-21 From 9 11 to the Snowden leaks stories about surveillance increasingly dominate the headlines But surveillance is not only done to us it is something we do in everyday life We submit to surveillance believing we have nothing to hide Or we try to protect our privacy or negotiate the terms under which others have access to our data At the same time we participate in surveillance in order to supervise children monitor other road users and safeguard our property Social media allow us to keep tabs on others as well as on ourselves This is the culture of surveillance This important book explores the imaginaries and practices of everyday surveillance Its main focus is not high tech organized surveillance operations but our varied mundane experiences of surveillance that range from the casual and careless to the focused and intentional It insists that it is time to stop using Orwellian metaphors and find ones suited to twenty first century surveillance from The Circle or Black Mirror Surveillance culture David Lyon argues is not detached from the surveillance state society and economy It is informed by them He reveals how the culture of surveillance may help to domesticate and naturalize surveillance of unwelcome kinds and considers which kinds of surveillance might be fostered for the common good and human flourishing
