Website: <http://fog.ccsf.edu/pherrman/index.htm> - follow the links for Chem 32 lab

Web Site for the lab: <http://www.ccsf.cc.ca.us/Departments/Chemistry/solow/ms31hpb.htm>

This contains a great deal of helpful information on laboratory procedures and practice problems on using and reading the balances, among other useful material. If you have trouble going directly to that URL, just go to Chemistry Department website, get to Mike Solow's web page, and there should be a link for it.

Description:

This is the laboratory portion of Chemistry 32. With a few exceptions, you all should be enrolled in my lecture section. Basic laboratory techniques are introduced here, and the experiments provide concrete examples of the concepts discussed in the lecture.

Special Note:

For the most part, the lab will remain fairly separate from the lecture in terms of points/grades. **We will be covering all of chapter 1 from the textbook in lab, however. Take good notes in lab if this material is unfamiliar to you!**

Required Materials:

Chemistry 32 – Laboratory Manual by CCSF Chemistry Department (green cover). This can be purchased in the CCSF Bookstore, and we **highly recommend** that you place the manual into a 3-ring binder.

Scientific calculator, and safety glasses or goggles

Grading:

You must read the procedure for the experiment **before** attending that lab. **A Lab Record Sheet is to be handed in at the end of most lab sessions. If you hand it in late, some points for that lab write-up will be deducted.** Quizzes will be announced 1 week in advance, and these will normally cover the material from the previous couple of labs. They may include some basic questions about that day's lab (if I think many of you are not as prepared as you should be). Lab notes and lab text may usually be used during the quizzes.

Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a masterful and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
