

Chemical Eric: Dealing with the Disintegration of Central Control

Part 1:

1. What hormonal problem could be causing these symptoms?
 - The symptoms are rapid bone growth, thyroid is down, cortisone is low, low testosterone level, and high growth hormone level. All these are the hormones of anterior pituitary gland or regulated by the secretions of anterior pituitary gland hormones. Cortisone is controlled by ACTH while testosterone is controlled by FSH and LH. This shows that he might have a hormonal problem regarding his anterior pituitary gland.
2. Why would joint damage be associated with rapid growth and low testosterone levels?
 - Rapid growth can lead to joint damage as it disrupts the supply of blood to the cartilage, causing bone death which leads to the joint damage. Testosterone maintains bone density and the low level of testosterone causes weight gain and low bone density which leads to joint damage.

Part 2:

1. Should Dr. Kidd tell Eric that he is probably sterile? Why would he be sterile?
 - Yes, Dr. Kidd should tell Eric because the tumor in the pituitary gland causes low level of testosterone and low level of cortisone and thyroid. Testosterone is responsible for sperm production and the low level of testosterone can lead to a lower sperm count which makes the patient

Resources in Education ,1997 *Mind* Eric Matthews,2005-09-15 Key Concepts in Philosophy is a series of concise accessible and engaging introductions to the core ideas and subjects encountered in the study of philosophy Specially written to meet the needs of students and those with an interest in but little prior knowledge of philosophy these books open up fascinating yet sometimes difficult ideas The series builds to give a solid grounding in philosophy and each book is also ideal as a companion to further study The philosophy of mind inquiry into just what the mind is and the nature of its relationship to the body is one of Western philosophy s focal points This is a comprehensive clear and authoritative guide to the subject s history its key themes and concepts and those philosophers who have most influenced it aimed at students encountering the discipline for the first time The text illustrates the importance of the concept of mind in defining what it is to be human this unifies the discussion and analysis of specific topics Having outlined the major traditional accounts of the nature of the mind in western philosophy the book goes on to examine such important concepts as subjectivity intentionality and behaviour The book also explores how far the concept of mind can be extended to animals and machines such as computers and robots Philosophy undergraduates will find this an invaluable aid to study one that goes beyond simple definitions and summaries to really open up fascinating and important ideas and arguments *Making the World Global* Isaac A. Kamola,2019-06-07

Following World War II the American government and philanthropic foundations fundamentally remade American universities into sites for producing knowledge about the world as a collection of distinct nation states As neoliberal reforms took hold in the 1980s visions of the world made popular within area studies and international studies found themselves challenged by ideas and educational policies that originated in business schools and international financial institutions Academics within these institutions reimagined the world instead as a single global market and higher education as a commodity to be bought and sold By the 1990s American universities embraced this language of globalization and globalization eventually became the organizing logic of higher education In *Making the World Global* Isaac A Kamola examines how the relationships among universities the American state philanthropic organizations and international financial institutions created the conditions that made it possible to imagine the world as global Examining the Center for International Studies Harvard Business School the World Bank the Social Science Research Council and NYU Kamola demonstrates that how we imagine the world is always symptomatic of the material relations within which knowledge is produced **Books and Pamphlets, Including Serials and Contributions to Periodicals** Library of Congress.
