Death, Disability, and the Superhero José Alaniz, 2014-10-15 The Thing Daredevil Captain Marvel The Human Fly Drawing on DC and Marvel comics from the 1950s to the 1990s and marshaling insights from three burgeoning fields of inquiry in the humanities disability studies death and dying studies and comics studies Jos Alaniz seeks to redefine the contemporary understanding of the superhero Beginning in the Silver Age the genre increasingly challenged and complicated its hypermasculine quasi eugenicist biases through such disabled figures as Ben Grimm The Thing Matt Murdock Daredevil and the Doom Patrol Alaniz traces how the superhero became increasingly vulnerable ill and mortal in this era He then proceeds to a reinterpretation of characters and series some familiar Superman some obscure She Thing These genre changes reflected a wider awareness of related body issues in the postwar U S as represented by hospice death with dignity and disability rights movements The persistent highlighting of

the body's imperfection comes to forge a predominant aspect of the superheroic self. Such moves originally part of the Silver Age strategy to stimulate sympathy, enhance psychological depth, and raise the dramatic stakes developed further in such later series as *The Human Fly*, *Strikeforce Morituri*, and the landmark graphic novel *The Death of Captain Marvel*, all examined in this volume. Death and disability, presumed routinely absent or denied in the superhero genre, emerge to form a core theme and defining function of the Silver Age and beyond.
