Digital Property Currency Of The 21st Century:

Digital Property Lesley Ellen Harris, 1998 This timely book shows readers that their creative work whether a photo a painting music data or a new game is like money in the bank and controlling its content means big profits **Introduction to Managing Digital Assets** Diane M. Zorich, 1999-06-10 As the use of electronic networks becomes more ubiquitous in the cultural and educational community issues of management communication and distribution increase in complexity Within this digital environment options and strategies regarding an institution's intellectual and cultural property take on critical importance Introduction to Managing Digital Assets reviews the traditions of rights administration and content distribution in various creative sectors and identifies common structures and functions within these organizations The book explores the relationships among the provider the rightsholder and the user highlighting issues of particular relevance to cultural and educational communities The Introduction to series acquaints professionals and students with the complex issues and technologies in the production management and dissemination of cultural heritage information resources **Licensing Digital Content** Lesley Ellen Harris, 2009-06 Provides an overview of issues surrounding electronic media access licenses for librarians **Digital Property** Lesley Ellen Harris, 1998 This timely book shows readers that their creative work whether a photo a painting music data or a new game is like money in the bank and controlling its content means big profits

Global Librarianship Martin A. Kesselman, Irwin Weintraub, 2004-07-23 Providing new insights into the role of librarianship in an age of socioeconomic environmental and political transformation Global Librarianship illustrates how globally networked environments promote and increase the sharing and dissemination of ideas information and solutions to obstacles affecting libraries This reference showcases methods **Digital Play** Stephen Kline, Nick Dyer-Witheford, Greig De Peuter, 2003 In a marketplace that demands perpetual upgrades the survival of interactive play ultimately depends on the adroit management of negotiations between game producers and youthful consumers of this new medium The authors suggest a model of expansion that encompasses technological innovation game design and marketing practices Their case study of video gaming exposes fundamental tensions between the opposing forces of continuity and change in the information economy between the play culture of gaming and the spectator culture of television the dynamism of interactive media and the increasingly homogeneous mass mediated cultural marketplace and emerging flexible post Fordist management strategies and the surviving techniques of mass mediated marketing Digital Play suggests a future not of democratizing wired capitalism but instead of continuing tensions between access to and enclosure in technological innovation between inertia and diversity in popular culture markets and between commodification and free play in the cultural industries publisher description **Economics, Law and Intellectual Property** Ove Granstrand, 2003-11-30 Intellectual property has rapidly become one of the most important as well as most controversial subjects in recent years amongst productive thinkers of many kinds all over the world Scientific work and technological progress now depend largely on questions of who owns

what as do the success and profits of countless authors artists inventors researchers and industrialists Economic legal and ethical issues play a central role in the increasingly complex balance between unilateral gains and universal benefits from the knowledge society Economics Law and Intellectual Property explores the field in both depth and breadth through the latest views of leading experts in Europe and the United States It provides a fundamental understanding of the problems and potential solutions not only in doing practical business with ideas and innovations but also on the level of institutions that influence such business Addressing a range of readers from individual scholars to company managers and policy makers it gives a unique perspective on current developments *Understanding Information Retrieval Systems* Marcia J.

Bates,2011-12-20 In order to be effective for their users information retrieval IR systems should be adapted to the specific needs of particular environments The huge and growing array of types of information retrieval systems in use today is on display in *Understanding Information Retrieval Systems Management Types and Standards* which addresses over 20 typ

Managing Intellectual Property for Museums Rina Elster Pantalony,2013 This Guide prepared by Rina Elster Pantalony was recently updated to reflect the tremendous developments since it was first published in 2007 in particular Digital Rights Management the role of social media as a business opportunity and traditional knowledge The two part Guide first describes IP issues relevant to museums then reviews existing business models that could provide museums with appropriate opportunities to create sustainable funding and deliver on their stated objectives **Policy Issues in Modern Cartography** D.R. Fraser Taylor,1998-10-16 *Policy Issues in Modern Cartography* contains the views of national mapping agencies legal scholars the library community the private sector and academia on these and many other important issues The book begins with perspectives from national mapping agencies in Britain Canada and the United States followed by a survey of the situation in Asia The next three chapters deal primarily with legal issues such as copyright and intellectual property from both North American and European perspectives Chapter 8 presents an important perspective on the key issues by a representative of the private sector followed by six chapters written primarily by academics including an important contribution by a map librarian The volume concludes with an assessment of the challenges remaining
