Critical Perspectives On Values Education In Asia:

Critical Perspectives on Values Education in Asia Charlene Tan, Kim Chong Chong, 2007 The Routledge International Handbook of Life and Values Education in Asia John Chi-Kin Lee, Kerry J Kennedy, 2024-06-28 This Handbook provides a comprehensive look at the educational scope of life and values that characterize 21st century Asia as well as those values shared across cultures. Some values are deeply resonant with the region's past while others reflect modernity and the new contexts in which Asian societies find themselves. Exploring these values of different types and the way they are constructed in Eastern and Western contexts, the contributors delve into the diversity of religious, moral, and social education to promote greater understanding across cultures. While a range of values is identified here, there is no single set of values that can be applied to all people in all contexts. The time has long gone even for single societies when values can be imposed. Yet this Handbook emphasizes both the extent and importance of values to individuals and their societies, how they respond to these values may provide the key to better and more caring societies, and to better lives for all. Academics and teachers will find this Handbook resourceful because it raises important theoretical issues related to social values and their formation in distinctive contexts and provides novel insights into the diverse educational landscape in Asia. Policymakers and educators will also find this text helpful in learning to think about new ways to improve the quality of people's lives. **Routledge**

International Handbook of Schools and Schooling in Asia Kerry J. Kennedy, John Chi-Kin Lee, 2018-05-11 This comprehensive handbook is the ultimate reference work providing authoritative and international overviews of all aspects of schools and schooling in Asia. Split into 19 sections, it covers curriculum, learning, and assessment; private supplementary tutoring; special education; gender issues; ethnic minority education; and LGBTQI students in Asian schools. The volume displays the current state of the scholarship for schools and schooling in Asia, including emerging, controversial, and cutting-edge contributions using a thematic approach. The content offers a broad sweep of the region with a focus on theoretical, cultural, and political issues, as well as identifying educational issues and priorities such as curriculum, assessment, teacher education, school leadership, etc., all of which impact students and learning in multiple ways. The Routledge International Handbook of Schools and Schooling in Asia brings together experts in each area to contribute their knowledge, providing a multidimensional and rich view of the issues confronting the region's school and education systems. Chapters 34, 35, 36, 37, and 38 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license. Critical Perspectives on Global Literacies Shea N. Kerkhoff, Hiller A. Spires, 2023-05-05 This book offers critical perspectives on global literacies, connecting research, theory, and practice. An emerging concept in the literacy field, many scholars agree on the need for students to develop global literacies, yet few agree on a widely accepted definition. Based on a synthesis of the literature, the editors formulate a definition of global literacies with four dimensions, including literacy as a human right in all nations around the

world critical reading and creation of multimodal texts about global issues intercultural communication and reciprocal collaboration with globally diverse others and transformative action for social and environmental justice that traverses borders Taking this shared proposed definition as a starting point the chapters then offer contextualized examples of global literacies from K 12 and teacher education classrooms to make explicit links between research and practice The contributors interact with and interrogate the book s definition of global literacies using a common framework of critical theory As such this book provides both emerging and established scholars with critical frameworks for positioning global literacies in ways that are relevant dynamic and forward thinking

Critical Perspectives on Language Education Katie Dunworth, Grace Zhang, 2014-07-24 The studies in this volume investigate how multilingual education involves a critical engagement with questions of identity and culture and a movement towards new ways of being and belonging It addresses previously under explored issues in particular the integration of theories like thirdness and practices of language education and maintenance with relevance to the Asia Pacific region The analyses reveal the delicate balance of interests of all stakeholders and offer detailed insights into the reality of multilingual education with specific examples of Chinese English Japanese and Tamil In a globalised world effective language education has become increasingly important and the studies presented here have the potential to inform and advance evidence based multilingual education through adding important dimensions of theoretical exploration and refreshing empirical resources

Diverse Early Childhood Education Policies and Practices Amita Gupta, 2014-04-29 *Diverse Early Childhood Education Policies and Practices* explores issues in early childhood education and teacher preparation in five Asian countries India Singapore China Sri Lanka and the Maldives Some observed classrooms in these countries reflect influences that are simultaneously indigenous and colonial local and global By highlighting the diverse and often hybrid classroom pedagogies at work in these 21st century Asian classrooms the discussions in this book take into consideration the influence of globalization on local policies and practices and the challenge educators face when they are expected to reconcile different and sometimes conflicting cultural and pedagogical world views Through a research driven analysis of key issues such as recent revisions to national early childhood education policies perceptions on play based and child centered pedagogy curriculum and learning materials and an emphasis on the teaching of values this book illuminates the diversity of the observed classrooms as well as current trends in early childhood education in parts of Asia The cross national perspective serves to expand and diversify the global discourse of early childhood education and teacher education
