Terror and Territory Stuart Elden, 2009 Today's global politics demands a new look at the concept of territory From so called deterritorialized terrorist organizations such as al Qaeda to U S led overthrows of existing regimes in the Middle East the relationship between territory and sovereignty is under siege Unfolding an updated understanding of the concept of territory Stuart Elden shows how the contemporary war on terror is part of a widespread challenge to the connection between the state and its territory Although the importance of territory has been disputed under globalization territorial relations have not come to an abrupt end Rather Elden argues the territory sovereignty relation is being reconfigured Traditional geopolitical analysis is transformed into a critical device for interrogating hegemonic geopolitics after the Cold War and is employed in the service of reconsidering discourses of danger that include failed states disconnection and terrorist networks Looking anew at the war on terror the development and application of U S policy the construction and demonization of rogue states events in Lebanon Somalia and Pakistan and the wars continuing in Afghanistan and Iraq Terror and Territory demonstrates how a critical geographical analysis informed by political theory and history can offer an urgently needed perspective on world events

Dār al-Islām Revisited Sarah Albrecht, 2018-04-24 Where is d r al isl m and who defines its boundaries in the 21st century In D r al Isl m Revisited Territoriality in Contemporary Islamic Legal Discourse on Muslims in the West Sarah Albrecht explores the variety of ways in which contemporary Sunni Muslim scholars intellectuals and activists reinterpret the Islamic legal tradition of dividing the world into d r al isl m the territory of Islam d r al arb the territory of war and other geo religious categories Starting with an overview of the rich history of debate about this tradition this book traces how and why territorial boundaries have remained a matter of controversy until today It shows that they play a crucial role in current discussions of religious authority identity and the interpretation of the shari'a in the West

Muhammad's Grave Leor Halevi, 2011 In this probing study of death rites Leor Halevi plays prescriptive texts against material culture advancing a new way of interpreting the origins of Islam He

shows how religious scholars produced codes of funerary law to create new social patterns in the cities of Arabia Mesopotamia and the eastern Mediterranean They distinguished Islamic from Christian Jewish and Zoroastrian rites and they changed the way men and women interacted publicly and privately Each chapter explores a different layer of human interaction following the movement of the corpse from the deathbed to the grave Highlighting economic and political factors as well as key religious and sexual divisions Halevi forges a fascinating link between the development of funerary rites and the efforts of an emerging religion to carve its own distinct identity Muhammad s Grave is a groundbreaking history of the rise of Islam and the roots of contemporary Muslim attitudes toward the body and society **Syene VI** Gregory

Williams,2022-12-31 In the 9th century CE the city of Aswan Egypt was a prosperous provincial capital on the pilgrimage route to Mecca and Medina via the Red Sea as well as trade routes connecting the Nile River to the Wadi al Allaqi mines Egypt s main source of gold The city was identified by medieval writers and geographers as situated at the frontier between Muslim Egypt and Christian Nubia Salvage excavations under the auspices of the Swiss Egyptian mission in Syene Old Aswan have revealed considerable evidence of medieval Islamic activity Evidence from 9th 10th century ceramic assemblages uncovered during these investigations is compared and contrasted with a variety of historical sources concerning this same period The evidence suggests that a particular style of common utilitarian ceramics produced in the Aswan region was utilized frequently and carried or exported extensively throughout Upper Egypt the Eastern Desert and Lower Nubia during the 9th 10th centuries and beyond The assemblages demonstrate a considerable distinction with the corpus of common ceramics of Fustat and Lower Egypt in the early Islamic period as well as those of contemporary Upper Nubia and sites further south along the Nile into Northeastern Africa Aswan and the First Cataract region came to function as a central node of a network marked by a regional material culture that transcended traditional political or religious divisions between Egypt and Nubia or Muslim and Christian The evidence from Aswan provides an alternative interpretation of medieval landscapes and regionalism one which prioritizes the material culture of daily life over the presumed divisions of political history or religious boundaries Interludes of Peace in the Medieval Latin East Yvonne Friedman,2025-09-08

Interludes of Peace in the Medieval Latin East undertakes a multifaceted examination of peacemaking processes as they unfolded in the medieval Latin East Perhaps less heroic than war these peacemaking endeavors make a significant contribution to our understanding of life in the medieval Middle East during the Crusades This book considers how ceasefires truces and peace treaties were achieved through a process of mutual acculturation between Crusaders and local Muslim societies and the mechanisms employed to overcome both cultural and religious divides Notwithstanding these warring societies differing concepts of lasting peace this did not prevent them from engaging in treaty making during the twocentury long conflict in the Latin East The story told here is of the quest for small realistic peace however fragile and temporary In the process a shared language of gestures body language and gift giving was created that enabled and enhanced trust and coexistence However global
