Nzewi, 2015 In the 1990s a new wave of globalization changed the field of cultural production in many African countries and paved the way for major new cultural events In particular during the last two decades an ever growing series of art and cultural centers were and still are being established often against the background of broader national art histories and the historic prominence of the state as the primary patron of the arts In considering the historical genealogy of these new spaces this book examines the infrastructures and public spaces they create the theoretical discourses they tap into and explore the aesthetic and cultural political debates they stir the role they play in the field of cultural institutions and cultural activism and their relations with state and municipal institutions Series African Art and Visual Cultures Vol 2 Subject African Studies Cultural Studies Art **Art Activism for an Anticolonial Future** Carlos Garrido Castellano, 2021-10-01 Analyzing the confluence between coloniality and activist art Art Activism for an Anticolonial Future argues that there is much to gain from approaching contemporary politically committed art practices from the angle of anticolonial postcolonial and decolonial struggles These struggles inspired a vast yet underexplored set of ideas about art and cultural practices and did so decades before the acceptance of radical artistic practices by mainstream art institutions Carlos Garrido Castellano argues that art activism has been confined to a limited spatial and temporal framework that of Western culture and the modernist avant garde Assumptions about the individual creator and the belated arrival of derivative avant garde aesthetics to the periphery have generated a narrow view of political art at the expense of our capacity to perceive a truly global alternative praxis Garrido Castellano then illuminates such a praxis focusing attention on socially engaged art from the Global South challenging the supposed universality of Western artistic norms and demonstrating the role of art in promoting and configuring a collective critical consciousness in postcolonial public spheres This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7166> **Creating Spaces.
