Confession And Keeping The Religious Moral And Rhetorical Roots Of Modern Accounting:

Confession and Bookkeeping James Aho, 2006-06-01 A fascinating exploration of the connection between profit making and morality this book illustrates how modern accounting had its roots in the sacrament of confession

Confession and Bookkeeping James Aho, 2012-02-01 Double entry bookkeeping DEB modern capitalism's first and foremost calculative technology was invented during the Middle Ages when profit making was morally stigmatized James Aho examines the problematic of moneymaking and offers an explanatory understanding of the paradoxical coupling of profit seeking and morality by situating DEB in the religious circumstances from which it emerged specifically the newly instituted sacrament of penance that is confession Confession impacted the consciences of medieval businessmen both through its sacramental form and through its moral teachings The form of confession produced widespread habits of moral scrupulosity leading to compulsive record keeping the content of confession taught that commerce itself was morally suspect Scrupulous businessmen were thus driven to justify their affairs to church commune and themselves With the aid of DEB moneymaking was Christianized and Christianity was made more amenable to the pursuit of wealth Although DEB is typically viewed exclusively as a scientifically neutral account of the flow of money through a firm it remains as it was originally devised a rhetorical argument

Economies of Literature and Knowledge in Early Modern Europe Subha Mukherji, Dunstan Roberts, Rebecca Tomlin, George Oppitz-Trotman, 2020-09-22 Placing literature at the centre of Renaissance economic knowledge this book offers a distinct intervention in the history of early modern epistemology It is premised on the belief that early modern practices of change and exchange produced a range of epistemic shifts and crises which nonetheless lacked a systematic vocabulary These essays collectively tap into the imaginative kernel at the core of economic experience to grasp and give expression to some of its more elusive experiential dimensions The essays gathered here probe the early modern interface between imaginative and mercantile knowledge between technologies of change in the field of commerce and transactions in the sphere of cultural production and between forms of transaction and representation In the process they go beyond the specific interrelation of economic life and literary work to bring back into view the thresholds between economics on the one hand and religious legal and natural philosophical epistemologies on the other

Manuals for Penitents in Medieval England Krista A. Murchison, 2021 First comprehensive survey of a major genre of medieval English texts its purpose characteristics and reception The bestseller list of medieval England would have included many manuals for penitents works that could teach the public about the process of confession and explain the abstract concept of sin through familiar situations Among these bestselling works were the *Manuel des p ch s* commonly known through its English translation *Handlyng Synne* The *Speculum Vitae* and Chaucer's *Parson's Tale* This book is the first full length overview of this body of writing and its material and social contexts It shows that while manuals for penitents developed under the Church's control they also became a site of the Church's concern Manuals such as the *Compileison* which was addressed to a much

broader audience than its English analogue Ancrene Wisse brought learning that had been controlled by the Church into the hands of layfolk and in so doing raised significant concerns over who should have access to knowledge Clerics worried that these manuals might accidentally teach people new sins remind them of old ones or become sites of prurient interest This finding and others explored in this book call for a new awareness of the complications and contradictions inherent in late medieval orthodoxy and reveal plainly that even writing that happened firmly within the Church's control could promote new and complex ways of thinking about religion and the self

Accounting is an Evolved Economic Institution Gregory B. Waymire, Sudipta Basu, 2008 Accounting is an Evolved Economic Institution summarizes accounting history over the past ten thousand years and can be used as a primer of accounting history

The Business of Emotions in Modern History Mandy L. Cooper, Andrew Popp, 2023-01-12 The Business of Emotions in Modern History shows how businesses from individual entrepreneurs to family firms and massive corporations have relied on leveraged generated and been shaped by emotions for centuries With a broad temporal and global coverage ranging from the early modern era to the present day in Africa Asia Europe and North America the essays in this volume highlight the rich potential for studying emotions and business in tandem In exploring how emotions and emotional situations affect business and in turn how businesses affect the emotional lives of individuals and communities this book allows us to recognise the emotional structures behind business decisions and relationships and how to question them From emotional labour in family firms to affective corporate paternalism and the role of specific emotions such as trust fear anxiety love and nostalgia in creating economic connections this book opens a rich new avenue of research for both the history of emotions and business history

The End of Satisfaction Heather Hirschfeld, 2014-04-17 Heather Hirschfeld recovers the historical specificity and the conceptual vigor of the term satisfaction as used in dramas of the sixteenth and early seventeenth centuries

History of Economic Rationalities Jakob Bek-Thomsen, Christian Olaf Christiansen, Stefan Gaarsmand Jacobsen, Mikkel Thorup, 2017-03-21 This book concentrates upon how economic rationalities have been embedded into particular historical practices cultures and moral systems Through multiple case studies situated in different historical contexts of the modern West the book shows that the development of economic rationalities takes place in the meeting with other regimes of thought values and moral discourses The book offers new and refreshing insights ranging from the development of early economic thinking to economic aspects and concepts in the works of classical thinkers such as Thomas Hobbes John Locke and Karl Marx to the role of economic reasoning in contemporary policies of art and health care With economic rationalities as the read thread the reader is offered a unique chance of historical self awareness and recollection of how economic rationality became the powerful ideological and moral force that it is today

Labors Lost Natasha Korda, 2011-09-21 Labors Lost offers a fascinating and wide ranging account of working women's behind the scenes and hitherto unacknowledged contributions to theatrical production in Shakespeare's time Natasha Korda reveals that the purportedly all male professional stage relied on the labor wares

ingenuity and capital of women of all stripes including ordinary crafts and tradeswomen who supplied costumes props and comestibles wealthy heiresses and widows who provided much needed capital and credit wives daughters and widows of theater people who worked actively alongside their male kin and immigrant women who fueled the fashion driven stage with a range of newfangled skills and commodities Combining archival research on these and other women who worked in and around the playhouses with revisionist readings of canonical and lesser known plays *Labors Lost* retrieves this lost history by detailing the diverse ways women participated in the work of playing and the ways male players and playwrights in turn helped to shape the cultural meanings of women s work Far from a marginal phenomenon the gendered division of theatrical labor was crucial to the rise of the commercial theaters in London and had an influence on the material culture of the stage and the dramatic works of Shakespeare and his contemporaries
