Creative Anarchy:

Enabling Creative Chaos Katherine K. Chen, 2009-09-15 In the summer of 2008 nearly fifty thousand people traveled to Nevada's Black Rock Desert to participate in the countercultural arts event Burning Man Founded on a commitment to expression and community the annual weeklong festival presents unique challenges to its organizers Over four years Katherine K Chen regularly participated in organizing efforts to safely and successfully create a temporary community in the middle of the desert under the hot August sun Enabling Creative Chaos tracks how a small underfunded group of organizers transformed into an unconventional corporation with a ten million dollar budget and two thousand volunteers Over the years Burning Man's organizers have experimented with different management models learned how to recruit motivate and retain volunteers and developed strategies to handle regulatory agencies and respond to media coverage This remarkable evolution Chen reveals offers important lessons for managers in any organization particularly in uncertain times

International Law, Necropolitics, and Arab Lives Khaled Al-Kassimi, 2022-10-27 International Relations and International Law continue to be accented by epistemic violence by naturalizing a separation between law and morality What does such positivist juridical ethos make possible when considering that both disciplines reify a secular immanent ontology International Law Necropolitics and Arab Lives emphasizes that positivist jurisprudence re-conquered Arabia by subjugating Arab life to the power of death using extrajudicial techniques of violence seeking the implementation of a New Middle East that is no longer resistant to Latin European modernity but amenable to such exclusionary telos The monograph goes beyond the limited remonstrance asserting that the problem with both disciplines is that they are primarily Eurocentric Rather the epistemic inquiry uncovers that legalizing necropower is necessary for the temporal coherence of secular modernity since a humanitarian logic masks sovereignty inherently being necropolitical by categorizing Arab Islamic epistemology as an internal external enemy from which nationalist citizenship must be defended This creates a sense of danger around which to unite modern epistemology whilst reinforcing the purity of a particular ontology at the expense of banning and dehumanizing a supposed impure Arab refugee This book will be of interest to graduate students scholars and finally practitioners of international relations political theory philosophical theology and legal theory

Resonances Michael Goddard, Benjamin Halligan, Nicola Spelman, 2013-07-18

Resonances is a compelling collection of new essays by scholars writers and musicians all seeking to explore and enlighten this field of study Noise seems to stand for a lack of aesthetic grace to alienate or distract rather than enrapture And yet the drones of psychedelia the racket of garage rock and punk the thudding of rave the feedback of shoegaze and post rock the bombast of thrash and metal the clatter of jungle and the stuttering of electronica together with notable examples of avant garde noise art have all found a place in the history of contemporary musics and are recognised as representing key evolutionary moments Noise therefore is the untold story of contemporary popular music and in a critical exploration of noise lies the possibility of a new narrative one that is wide ranging connects the popular to the underground and avant garde fully posits the studio as a musical instrument and demands new critical and theoretical paradigms of those seeking to write about music
