Chinas Information And Communications Technology Revolution Social Changes And State Responses:

China's Information and Communications Technology Revolution Xiaoling Zhang, Yongnian Zheng, 2009-03-20 In recent years China has experienced a revolution in information and communications technology ICT in 2003 surpassing the USA as the world's largest telephone market and as of February 2008 the number of Chinese Internet users has become the largest in the world At the same time China has overtaken the USA as the world's biggest supplier of information technology goods However this transformation has occurred against the backdrop of a resolutely authoritarian political system and strict censorship by the Party state This book examines China's ICT revolution exploring the social cultural and political implications of China's transition to a more information rich and communication intensive society The pace of the development of ICT in China has precipitated much speculation about political change and democratisation This book explores the reality of ICT in China showing clearly that whilst China remains a one party state with an ever present and sophisticated regime of censorship substantial social and political changes have taken place It considers the ICT revolution in all its aspects outlining the dominant trends the impact on other countries of China as an ICT exporter strategies of government censorship and use of ICT for propaganda the implications of censorship for Chinese governance the political implications of internet culture and blogging and the role of domestic and foreign NGOs Overall this book is a vital resource for anyone seeking to understand a rapidly transforming China both today and in the years to come **China's**

Information and Communications Technology Revolution Xiaoling Zhang, Yongnian Zheng, 2009-03-20 This book examines China's information and communications technology revolution It outlines key trends in internet and telecommunications exploring the social cultural and political implications of China's transition to a more information and communications rich society It shows that despite remaining a one party state with extensive censorship substantial changes have occurred

Changing State-society Relations In Contemporary China Wei Shan, Lijun Yang, 2016-08-30 This book attempts to provide an overview of social and political changes in Chinese society since the global financial crisis Rapid economic development has restructured the setup of society and empowered or weakened certain social players The chapters in this book provide an updated account of a wide range of social changes including the rise of the middle class and private entrepreneurs the declining social status of the working class as well as the resurgence of non governmental organisations and the growing political mobilisation on the internet The authors also examine the implications of those changes for state society relations governance democratic prospects and potentially for the stability of the current political regime **China's**

Soft Power and International Relations Hongyi Lai, Yiyi Lu, 2012 This book provides a comprehensive overview of China's use of soft power and assesses the impact this is having on the world and on the process of international relations China

Engages Global Governance Gerald Chan, Pak K. Lee, Lai-Ha Chan, 2011-10-20 This book focuses on China's increasing involvement in global governance as a result of the phenomenal rise of its economy and global power It examines whether

and in what ways China is capable of participating in multilateral interactions if it is willing and able to provide global public goods to address a wide array of global problems and what impact this would have on both global governance and order The book provides a comprehensive assessment of China's increasing influence over how world affairs are being managed how far China with increasing clout interacts with other major powers in global governance and what the consequences and implications are for the evolving global system and world order This book is the first to explore China's engagement with global governance in traditional and new securities

The Rise of Think Tanks in China Xufeng Zhu, 2013 Despite continuing criticism of the Chinese authoritarian political system the range of participants in the decision making process has widened with different social actors now playing an increasingly important role in the Chinese policymaking process Accordingly the role of think tanks in the policymaking process has generated great interest within and outside China This book explores the behaviour and influence of China's think tanks and explains the reasons and social consequences of the rise of think tanks in China The book raises several questions on the topic How did think tanks emerge in China What are the essential factors that determine think tanks in terms of building their governmental and personal networks How do think tanks work and build their influence in the Chinese policy process What happens to Chinese society when think tanks become important policy participants in the policy process The book goes on to discuss new perspectives on policy processes and elite politics in China and empirically with comparative case study and data from nationwide questionnaire surveys provides a comprehensive picture of think tanks in the current political system of the country

Governing Health in Contemporary China Yanzhong Huang, 2015-03-24 The lack of significant improvement in people's health status and other mounting health challenges in China raise a puzzling question about the country's internal transition why did the reform induced dynamics produce an economic miracle but fail to reproduce the success Mao had achieved in the health sector This book examines the political and policy dynamics of health governance in post Mao China It explores the political institutional roots of the public health and health care challenges and the evolution of the leaders policy response in contemporary China It argues that reform induced institutional dynamics when interacting with Maoist health policy structure in an authoritarian setting have not only contributed to the rising health challenges in contemporary China but also shaped the patterns and outcomes of China's health system transition The study of China's health governance will further our understanding of the evolving political system in China and the complexities of China's rise As the world economy and international security are increasingly vulnerable to major disease outbreaks in China it also sheds critical light on China's role in global health governance

China and the International System Xiaoming Huang, Robert Patman, 2013-03-20 This book considers the evolving relationship between China and the international system and the interaction between a China of profound change in its identity capability and influence and an international system that is itself experiencing a process of far reaching transformation It develops an analytical framework that allows us to capture understand and explain a more dynamic pattern

of agent structure interaction in China's relationship with the international system. By demonstrating a more dynamic and mutually constitutive relationship between China and the international system, the book explores the extent to which both transform themselves in the process and provides a fuller and more effective assessment of the evolving nature of the relationship. In doing so, it addresses key issues in the current literature on the relationship of China and the international system and helps close the gap in our knowledge of the conditions and consequences of change and stability in the international system as a result of the change in distributions of power, capability and influence among nation states.

China and International Relations Zheng Yongnian, 2010-09-13. Focussing on one of the most influential scholars writing on international relations, Wang Gungwu, this book explores the limitations of Western international relations approaches to China and explains China's IR from a non-Western perspective and demonstrates how the study of Chinese experiences can enrich the IR field.

Ecological Risks and Disasters - New Experiences in China and Europe Li Peilin, Laurence Roulleau-Berger, 2015-11-19. Climate change and also other factors are capable of bringing about major disasters on a scale hitherto unimaginable. Ecological and other risks, besides having scientific and technological dimensions, are also a subject of study for social scientists concerned with how disasters and potential disasters are noticed, perceived, guarded against, managed once they have occurred and coped with after they have happened. This book considers a range of ecological risks and disasters and how they are managed in both China and Europe. It examines how far risks and disasters are perceived and managed in different ways in Europe and China, explores how an increasing humanitarian approach to vulnerable people being taken up in Europe is also being adopted in China and assesses how far the management of disasters differs from wider government management of more ordinary aspects of everyday life. The book argues that the same stresses and strains which are present in normal society are there also in enhanced form in disaster situations.
