Chinese Foreign Policy Theory And Practice Studies On Contemporary China

Tim Nicholas Rühlig

Chinese Foreign Policy Theory And Practice Studies On Contemporary China:

Chinese Foreign Policy Thomas W. Robinson, David L. Shambaugh, 1995 This study of Chinese foreign policy is intended for academics and graduates of Chinese studies and of international relations international economics and those interested in decision making theory

Chinese Foreign Policy Suisheng Zhao, 2016-07-22 This volume explores how China is adapting to international norms and practices while still giving primacy to its national interests It examines China's strategic behaviour on the world stage particularly in its relationships with major powers and Asian neighbours

Chinese Foreign Policy Think Tanks and China's Policy Towards Japan Xuanli Liao, 2006 Examines Chinese foreign policy think tanks and their influence in China's foreign policy towards Japan between the late 1970s and late 1990s Through case studies this book demonstrates a growing pluralistic trend in post Mao China's foreign policy making process

Chinese Foreign Policy in Transition Guoli Liu, 2017-07-12 Since the establishment of the People's Republic of China in 1949 and particularly after the opening brought about by economic reforms roughly thirty years thereafter China has become an influential player in regional and global affairs Increasingly both American and European policymakers examine Chinese foreign policy as a flexible pragmatic and significant element in world affairs This has accelerated in the middle of the new first decade of this century as business firms and political officials have developed interests in the sources processes and significance of China's reemergence as a global force This volume examines how in conjunction with rapid economic growth and profound social transformation China's foreign policy is experiencing significant transition The purpose of this truly deep and probing collection is to deepen Western understanding of the sources substance and significance of Chinese foreign policy with a focus on the post Cold War environment Contributors include academic specialists area researchers and distinguished journalists all with firsthand experience in the field of China studies The volume is divided into four parts 1 theory and culture 2 perspective and identity 3 bilateral relationships and 4 retrospective and prospective essays on Chinese policy concerns The volume is sensitive to changes in national leadership and Communist Party structure as well as continuity and change in foreign policy As Lowell Dittmer of the University of California notes in his Foreword precisely because it is so difficult to do well the analysis of foreign policy is often conducted rather tritely Thus it is a real pleasure to find assembled here a treasure trove of some of the finest work by some of the field's most penetrating minds This is fortunate for at the core of this volume is one of the biggest and most portentous questions to confront the world at the outset of the twenty first century That

The Genesis of Chinese Communist Foreign Policy Michael H. Hunt, 1996 Is the Confucian tradition compatible with the Western understanding of human rights Are there fundamental human values regardless of cultural differences common to all peoples of all nations At this critical point in Communist China's history eighteen distinguished scholars address the role of Confucianism in dealing with questions of universal human rights

China's Foreign Policy Contradictions Tim Nicholas Rühlig, 2022 China's rise to great power status is indisputable but can it shape the future

international order This question remains widely debated because China's foreign policy is contradictory Contrary to conventional wisdom this book shows that China does not act from a position of strength but that foreign policy contradictions are the result of the domestic vulnerabilities of the ruling Chinese Communist Party Providing exceptional insights into the considerations behind the opaque institutional structures of Chinese foreign policymaking and decision making it shows that China will not provide a model for a new international system but could undermine the existing order

Chinese International Relations Theory Jonathan Ping, Anna Hayes, Brett McCormick, 2025-05-05 This book explores how fundamental aspects of China's rapidly evolving arena of international relations theory are emerging directly from the realms of practice and policy As a unique explanation of the Chinese School by those actually making the decisions assisted and researched in collaboration with eminent global scholars the book guides the global reader through the building of Chinese international relations theory and how China may be accounted for behaviour predicted and useful policy developed With chapters examining critical issues such as Statecraft and party The Belt and Road Initiative Diplomacy and Security in the Asia Pacific China US relations The South China Sea This book will provide new theory to policy makers and prove an invaluable guide to students and scholars of Chinese politics international relations theory diplomacy global studies and international relations

On Xi Jinping Former Prime Minister Kevin Rudd, Kevin Rudd, 2024-10-15 In *On Xi Jinping* former Australian Prime Minister Kevin Rudd provides an authoritative account of the worldview driving Chinese behavior on the world stage Focusing on domestic policy political economy and foreign policy Rudd argues that President Xi Jinping's worldview differs significantly from those of the leaders who preceded him and highlights how the shift has impacted policy A powerful analysis of the worldview of arguably the most consequential world leader of our era this will be essential reading for anyone interested in how Xi is transforming both China and the international order

Knowledge, Desire and Power in Global Politics Chengxin Pan, 2012-01-01 China threat or China opportunity like beauty is in the eyes of the beholder Western imaginations of China come under close scrutiny in this book in a new philosophical depth seldom attempted before Dr Pan displays in full force his analytical skills and his mastery of knowledge both East and West Contrary to conventional approaches he takes a step back to exercise a powerful reflective process to watch the China watchers with illuminating results Dr Pan's book deserves wide and careful reading Professor Gerald Chan University of Auckland New Zealand The rise of China is largely seen as either a threat or an opportunity Chengxin Pan exposes both of these representations as expressions of Western fears and desires for certainty and predictability His call for a more reflective and culturally sensitive understanding of China offers an important contribution to one of the big political debates of our time Professor Roland Bleiker University of Queensland Australia This is a brilliant and insightful treatment of Western representations of China with a theoretical framework suggesting they come not only from China itself but also the West Although it is not the first treatment of this topic it is innovative in considering the China threat and China opportunity both aspects of the rise of China

are of crucial importance for our times With provocative conclusions it is a truly path breaking contribution to the literature I recommend it highly Emeritus Professor Colin Mackerras Griffith University Australia Pan has produced a book which not only challenges some basic assumptions about the nature of China's rise but more importantly forces us to rethink the very basic starting points of how we know what we know about China Professor Shaun Breslin University of Warwick UK How is the rise of China perceived in the West Why is it often labelled as threat and or opportunity What are the implications of these China imageries for global politics Taking up these important questions this groundbreaking book argues that the dominant Western perceptions of China's rise tell us less about China and more about Western self imagination and its desire for certainty Chengxin Pan expertly illustrates how this desire masked as China knowledge is bound up with the political economy of fears and fantasies thereby both informing and complicating foreign policy practice in Sino Western relations Insofar as this vital relationship is shaped not only by China's rise but also by the way we conceptualise its rise this book makes a compelling case for critical reflection on China watching Knowledge Desire and Power in Global Politics is the first systematic and deconstructive analysis of contemporary Western representation of China's rise Setting itself apart from the mainstream empiricist literature its critical interpretative approach and unconventional and innovative perspective will not only strongly appeal to academics students and the broader reading public but also likely spark debate in the field of Chinese international relations

The Ashgate Research Companion to Chinese Foreign Policy Emilian Kavalski, 2016-04-01

The Ashgate Research Companion to Chinese Foreign Policy draws out the full range of topics and issues that characterise China's external affairs The volume is intended to provide an overview of Chinese foreign policy that will be relevant both to experts in the field as well as those that are just starting to grapple with Beijing's international outlook The investigation of Chinese foreign policy offered by the volume is divided into seven parts Part I focuses on the historical evolution of Chinese foreign policy by detailing the specific traditions and the altering paradigms of Beijing's external outlook proffered for the explanation and understanding of Chinese foreign policy Part II discusses the different analytical perspectives proffered for the explanation and understanding of Chinese foreign policy Part III considers the domestic sources of Chinese foreign policy Part IV analyses the international impact of Beijing's outreach Part V of the volume begins the exploration of China's relations with specific international actors Part VI investigates the regional interactions of Chinese foreign policy Part VII of the volume draws attention to several issues impacting both the practice and the understanding of Chinese foreign policy This Companion draws a vivid picture of the full spectrum of topics issues and relationships that define China's international interactions The collection therefore provides a relevant point of departure for anyone interested in learning about Beijing's external affairs Owing to the wide range of themes and ideas this volume is essential reading for students of Chinese foreign policy
