cell vehicles HFCVs could alleviate the nation s dependence on oil and reduce U S emissions of carbon dioxide the major
greenhouse gas Industry and government sponsored research programs have made very impressive technical progress over
the past several years and several companies are currently introducing pre commercial vehicles and hydrogen fueling
stations in limited markets However to achieve wide hydrogen vehicle penetration further technological advances are
required for commercial viability and vehicle manufacturer and hydrogen supplier activities must be coordinated In
particular costs must be reduced new automotive manufacturing technologies commercialized and adequate supplies of
hydrogen produced and made available to motorists These efforts will require considerable resources especially federal and
private sector funding This book estimates the resources that will be needed to bring HFCVs to the point of competitive self
sustainability in the marketplace It also estimates the impact on oil consumption and carbon dioxide emissions as HFCVs
