succumbed in adolescence to ready made computer games Adults are discouraged from playing as a waste of time with no relevance to the workplace Narrow notions of creativity exile the fictive imagination to fantasy arts And yet as Michele Root Bernstein demonstrates by means of historical inquiry quantitative study and contemporary interview spontaneous worldplay in childhood develops creative potential and strategic worldplay in adulthood inspires innovations in the sciences and social sciences as well as the arts and literature Inventing imaginary worlds develops the skills society needs for inventing the future For more on Inventing Imaginary Worlds check out www.inventingimaginaryworlds.com Check out Michele's website www.inventingimaginaryworlds.com
