Criminal Hornbook Series Wayne Lafave:

Merciful Judgments and Contemporary Society Austin Sarat, 2011-10-31 *Merciful Judgments and Contemporary Society* Legal Problems Legal Possibilities explores the tension between law's need for and dependence on merciful judgments and suspicions that regularly accompany them. Rather than focusing primarily on definitional questions or the longstanding debate about the moral worth and importance of mercy, this book focuses on mercy as a part of and problem for law. This book is a product of the University of Alabama School of Law symposia series on Law Knowledge and Imagination. It explores the ways law is known and imagined in a diverse array of disciplines including political science, history, cultural studies, philosophy, and science. In addition, books produced through the Alabama symposia explore various conjunctions of law, knowledge, and imagination as they play out in debates about theory and policy and speak to venerable questions as well as contemporary issues.

The Concept of Mens Rea in International Criminal Law Mohamed Elewa Badar, 2013-01-30 The purpose of this book is to find a unified approach to the doctrine of mens rea in the sphere of international criminal law based on an in-depth comparative analysis of different legal systems and the jurisprudence of international criminal tribunals since Nuremberg. Part I examines the concept of mens rea in common and continental legal systems as well as its counterpart in Islamic Shari'a law. Part II looks at the jurisprudence of the post-Second World War trials, the work of the International Law Commission, and the concept of genocidal intent in light of the travaux préparatoires of the 1948 Genocide Convention. Further chapters are devoted to a discussion of the boundaries of mens rea in the jurisprudence of the International Criminal Tribunals for the former Yugoslavia and Rwanda. The final chapter examines the definition of the mental element as provided for in Article 30 of the Statute of the International Criminal Court in light of the recent decisions delivered by the International Criminal Court. The study also examines the general principles that underlie the various approaches to the mental elements of crimes as well as the subjective element required in perpetration and participation in crimes and the interrelation between mistake of law and mistake of fact with the subjective element. With a Foreword by Professor William Schabas and an Epilogue by Professor Roger Clark. From the Foreword by William Schabas: Mohamed Elewa Badar has taken this complex landscape of mens rea at the international level and prepared a thorough, well-structured monograph. This book is destined to become an indispensable tool for lawyers and judges at the international tribunals. From the Epilogue by Professor Roger Clark: This is the most comprehensive effort I have encountered pulling together across legal systems the general part themes, especially about the mental element, found in a confusing array in the common law, the civil law, and Islamic law. In this endeavour, Dr. Badar's researches have much to offer us.

Criminal Law Homicide Adeyemi Oshunrinade, 2015-04-10 The book *Criminal Law Homicide* deals specifically on homicide as a subject in criminal law. With the book, I carefully carved homicide law out of criminal law by focusing on court cases dealing with homicide and by asking thought-provoking questions that provide better understanding and knowledge of the crime of homicide as a branch of
