Criminology Memorandum 2013:

Foundations of Criminal Justice Stephen S. Owen, 2019-07-15 What is law What is deviance What is justice How is justice achieved through law punishment and criminal justice agencies Now in its third edition *Foundations of Criminal Justice* uses a unique approach that provides students with the framework and the intellectual tools that they will need in order to critically analyze and evaluate the nature sources scope purposes and practical limitations of the criminal justice system This is the only introductory survey text that moves beyond a description of the criminal justice system helping students understand the role of criminal justice in their lives as criminal justice practitioners and as active citizens Innovative Justice Hannah Graham, Rob White, 2014-07-17 This book showcases innovative justice initiatives from around the world which engage offenders practitioners and communities to reduce reoffending and support desistance and positive change It is groundbreaking in bringing together inspiring ideas and pioneering practices to analyse how justice done differently is making a difference The voices and experiences of the people at the forefront of these innovative initiatives are presented throughout the book including offenders corrections staff and directors the judiciary scientists and academics volunteers and community organisations Strengths based research methods are used to investigate and celebrate best practices and good news stories from the field The authors raise critical questions about what is considered innovative and effective for whom and in what context presenting their own conceptual approach for analysing innovation With initiatives drawn from diverse jurisdictions and cultures including the UK Europe Australia Asia the US and South America this book showcases original ideas and refreshing developments that have the potential to transform rehabilitation and reintegration practices The book's substance and style will resonate with practitioners students and academics across the interdisciplinary fields of criminology and criminal justice The Crime of All Crimes Nicole Rafter, 2016-03-29 Cambodia Rwanda Armenia Nazi Germany History remembers these places as the sites of unspeakable crimes against humanity and indisputably of genocide Yet throughout the twentieth century the world has seen many instances of violence committed by states against certain groups within their borders from the colonial ethnic cleansing the Germans committed against the Herero tribe in Africa to the Katyn Forest Massacre in which the Soviets shot over 20 000 Poles to anti communist mass murders in 1960s Indonesia Are mass crimes against humanity like these still genocide And how can an understanding of crime and criminals shed new light on how genocide the crime of all crimes transpires In *The Crime of All Crimes* criminologist Nicole Rafter takes an innovative approach to the study of genocide by comparing eight diverse genocides large scale and small well known and obscure through the lens of criminal behavior Rafter explores different models of genocidal activity reflecting on the popular use of the Holocaust as a model for genocide and ways in which other genocides conform to different patterns For instance Rafter questions the assumption that only ethnic groups are targeted for genocidal cleansing and she also urges that actions such as genocidal rape be considered alongside traditional instances of genocidal violence Further by examining the causes of

genocide on different levels Rafter is able to construct profiles of typical victims and perpetrators and discuss means of preventing genocide in addition to delving into the social psychology of genocidal behavior and the ways in which genocides are brought to an end A sweeping and innovative investigation into the most tragic of events in the modern world *The Crime of All Crimes* will fundamentally change how we think about genocide in the present day *Terrorist Histories* Caoimhe Nic Dhaibheid,2016-11-03 This book addresses provides a series of in depth portraits of men and women who have been labelled terrorists from the 19th 20th and 21st centuries Bridging historical methodologies and theoretical approaches to terrorism studies it seeks to contribute to the developing historicising of terrorism studies This is achieved principally through a prosopographical approach In the preponderance of detailed statistical and quantitative data on the practice of terrorism and political violence the individuals who participate in terrorist acts are often obscured While ideologies and organisations have attracted much scholarly interest less is known of the personal trajectories into political violence particularly from a historical perspective The focus on a relatively narrow cast of high profile terrorist villains to a large part driven by popular and media attention results in a somewhat skewed picture of equal value arguably is a more sustained reflection on the lives of lesser known individuals The book sits at the juncture between terrorism studies historical biography and ethnography It comprises case studies of ten individuals who have engaged in political violence in the nineteenth twentieth and twenty first centuries in a number of locations and with a variety of ideological motivations from Russian inflected anarchism to Islamist extremism Through detailed empirical research crucial themes in the study of terrorism and political violence are explored the diverse individual radicalisation pathways the question of disengagement and re engagement various counter terrorist and counter insurgency strategies adopted by governments and security forces and the changing nature and perception of terrorism over time Although not explicitly comparative a number of themes resonate between the case studies which will be drawn together in the conclusion to this book These include the role of migration in radicalisation the influence of radical family heritages the experience of imprisonment and the narratives which individuals construct to tell their own terrorist life stories It also provides an historically grounded answer to one of the most contentious and heated debates in recent literature on terrorism studies what leads a person to turn to political violence In examining the life narratives of a diverse range of men and women who at some point embraced violence this book seeks to contribute to a growing understanding of the entire arc of a terrorist lifespan from radicalisation to mobilisation to disengagement and beyond This book will be of much interest to students of political violence terrorism studies security studies and politics in general **Emily Gets Her Gun** Emily Miller,2013-09-03 In the wake of tragic shootings in Newtown and Aurora the anti gun lobby has launched a campaign of lies distortion misrepresentation and emotional manipulation that is breathtaking in its vitriol and its denial of basic facts Their goal is to take away our Second Amendment rights and then disarm law abiding Americans Emily Miller tells her personal story of how being a single female victim of a home invasion drove her to try to obtain a legally registered

gun in Washington D C The narrative sometimes shocking other times hilarious in its absurdity gives the reader a real life understanding of how gun control laws only make it more difficult for honest law abiding people to get guns while violent crime continues to rise Using facts and newly uncovered research Miller exposes the schemes politicians on Capitol Hill in the White House and around the country are using to deny people their Second Amendment rights She exposes the myths that gun grabbers and liberal media use to get new laws passed that infringe on our right to keep and bear arms The gun rights debate isn t just about firearms It s about protecting a fundamental right that is enshrined in the U S Constitution It s about politicians who lie manipulate and outright break existing laws to get what they want It s about President Obama wanting a bigger federal government to control you Not just your guns you The fight for gun rights is the fight for freedom Emily Miller says stand up and fight back now because your Second Amendment will only be the first to go

Policing Legitimacy Justin R. Ellis, 2021-07-31 This book critically analyses the impact of digital media technologies on police scandal Using an in depth analysis of a viral bystander video of police excessive force filmed at the 2013 Sydney Gay and Lesbian Mardi Gras Parade and uploaded to YouTube the book addresses the ways social media video sousveillance can shape operational and institutional police responses to police misconduct The volume features new research on the immediate and longer term impacts of social media generated police scandal on police legitimacy and accountability and responds to inherent questions of procedural justice It interrogates the technological political and legal frameworks that govern the relationships between the police and LGBTQI communities in Australia and beyond through the social media test the police narratives created and contested through social media mainstream media and police media In doing so it considers the role of sexual citizenship discourse as a political economic and social organizing principle A comprehensive and interdisciplinary understanding of digital and queer criminology this is an essential read for those working at the intersection of criminology and the digital society queer criminology and critical criminology

Evidence-Based Policing Garth den Heyer, 2022-10-19 The volume aims to increase knowledge and understanding of how evidence based policing is being adopted and implemented by police agencies in the United States and whether it is affecting the agencies processes strategies community relationships and delivery of community oriented policing services This exploration is based on data drawn from the literature interviews and extensive field research that resulted in the case studies presented and discussed in the book The goal of this text will be to provide the reader with a thorough analysis of the concepts arguments and challenges facing evidence based policing The history of evidence based policing how evidence based practices are used in the health and social sectors and in the United Kingdom will be examined In addition reasonable options for improving the use of evidence based policing will be proposed Overall very practical policy implications will be outlined by a highly recognized professional who has considerable experience in policing and related research

Hard Bargains Mona Lynch, 2016-11-01 The convergence of tough on crime politics stiffer sentencing laws and jurisdictional expansion in the 1970s and 1980s increased the powers of federal prosecutors in unprecedented ways In *Hard Bargains* social psychologist Mona Lynch investigates the increased power of these prosecutors in our age of mass incarceration Lynch documents how prosecutors use punitive federal drug laws to coerce guilty pleas and obtain long prison sentences for defendants particularly those who are African American and exposes deep injustices in the federal courts As a result of the War on Drugs the number of drug cases prosecuted each year in federal courts has increased fivefold since 1980 Lynch goes behind the scenes in three federal court districts and finds that federal prosecutors have considerable discretion in adjudicating these cases Federal drug laws are wielded differently in each district but with such force to overwhelm defendants ability to assert their rights For drug defendants with prior convictions the stakes are even higher since prosecutors can file charges that incur lengthy prison sentences including life in prison without parole Through extensive field research Lynch finds that prosecutors frequently use the threat of extremely severe sentences to compel defendants to plead guilty rather than go to trial and risk much harsher punishment Lynch also shows that the highly discretionary ways in which federal prosecutors work with law enforcement have led to significant racial disparities in federal courts For instance most federal charges for crack cocaine offenses are brought against African Americans even though whites are more likely to use crack In addition Latinos are increasingly entering the federal system as a result of aggressive immigration crackdowns that also target illicit drugs *Hard Bargains* provides an incisive and revealing look at how legal reforms over the last five decades have shifted excessive authority to federal prosecutors resulting in the erosion of defendants rights and extreme sentences for those convicted Lynch proposes a broad overhaul of the federal criminal justice system to restore the balance of power and retreat from the punitive indulgences of the War on Drugs

The Practice of Correctional Psychology Marguerite Ternes, Philip R. Magaletta, Marc W. Patry, 2018-11-24 This highly accessible volume tours the competencies and challenges relating to contemporary mental health service delivery in correctional settings Balancing the general and specific knowledge needed for conducting effective therapy in jails and prisons leading experts present eclectic theoretical models current statistics diagnostic information and frontline wisdom Evidence based practices are detailed for mental health assessment treatment and management of inmates including specialized populations women youth and offenders with specific pathologies sexual offenders psychopaths And readers are reminded that correctional psychology is in an evolutionary state adapting to the diverse needs of populations and practitioners in the context of reducing further offending Included in the coverage Assessing and treating offenders with mental illness Substance use disorders in correctional populations Assessing and treating offenders with intellectual disabilities Assessing and treating those who have committed sexual offenses Self harm suicidality in corrections Correctional staff The issue of job stress The Practice of Correctional Psychology will be of major interest to psychologists social workers and master s level clinicians and students who work in
