The Politics of the European Union Herman Lelieveldt, Sebastiaan Princen, 2023-04-20 The European Union is a key player in determining policies and politics in Europe and yet understanding how it works remains a challenge The Politics of the European Union introduces students to its functioning by showing the similarities and differences between the EU and national political systems Fully revised and updated in its third edition this introductory textbook uses the tools of comparative politics to explore the history theories institutions key actors politics and policy making of the EU This

comparative approach enables students to apply their knowledge of domestic politics and broader debates in political science to better understand the EU Numerous real world examples guide students through the textbook and chapter briefings fact files and controversy boxes highlight the important and controversial issues in EU politics A companion website features free Navigating the EU exercises to guide students in their analysis of EU policy making *European Union Politics* Michelle|Borragan Cini (Nieves Perez-Solorzano),2025 This edited textbook covers a broad range of topics being taught in courses on the European Union The 25 chapters are written by experts from around the world and provide extensive coverage of history theories institutions and actors policies and issues and debates Labour Migration in the European Union Gönül Oğuz,2020-03-12 No analysis of migration in Europe today can avoid consideration of the role of the EU institutions as well as the member states in policy making This is because the obstacles for labour mobility which have confronted the EU in the post enlargement period have been multi dimensional in nature have encompassed many different aspects of European integration process and have operated at many different levels Recent developments in the free movement of labour in Europe entail a comprehensive analysis of the dynamic of migration policy process contextualising institutional change cooperation control and competition between the EU institutions and the member states This book provides a picture of how governance of labour migration is constructed managed negotiated and decided at the European level It brings together in an informed and well organized way some of the key issues in the face of current migration crises and Brexit

International Relations Hubert Zimmermann,Milena Elsinger,Alex Burkhardt,2024-03-22 The definitive applied theory textbook that helps you make sense of global issues through theoretical concepts Not presupposing any prior knowledge this introduction equips you with the skills to use theories as adaptable tools to tackle complex global issues Adopting a critical and questioning approach you will be equipped in theory as a series of tools to be used adapted combined and applied when grappling with some of the most contested issues in global politics Theoretical perspectives are brought alive as a vital tool to understand concrete historical and contemporary examples This indispensable text starts by examining key theories spanning constructivism and postcolonialism to realism and liberalism with a real world perspective which prioritises empirical purchase From here chapters take a critical questioning approach to tackle core problems of international politics from armed conflict and financial markets to the climate crisis global inequality gender and race This text is the ideal companion for all undergraduate and postgraduate students of global affairs Hubert Zimmermann is Professor of International Relations at Philipps University of Marburg Germany Milena Elsinger is Head of the student information department at Philipps University of Marburg Germany Alex Burkhardt teaches at the Bundessprachenamt in Koblenz Germany and previously taught at Philipps University Marburg Germany *Challenges and Barriers to the European Union Expansion to the Balkan Region* Costa, Bruno Ferreira,2022-01-21 Despite all efforts to create a political union capable of improving European citizens quality of life there are several barriers to the European Union s EU expansion

to the Balkan Region The EU enlargement and expansion to the Balkan Region is one of the Union's greatest challenges and political objectives in recent years In the turmoil of economic social and sanitarian crises where is the space to debate the enlargement of the EU Challenges and Barriers to the European Union Expansion to the Balkan Region presents the EU's structure the process of enlargement and the challenges related to the Balkan region This book addresses critical issues and challenges in the EU and the emerging trends for the EU's future Covering topics such as enlargement policy integration NATO and political challenges this book is a valuable resource for post grad students of political science and international affairs faculty of higher education researchers academicians politicians world leaders and policymakers **European**

Integration and the Crisis of Social Democracy James L. Newell, 2022-09-12 This is a book about European integration and mainstream parties of the left the main underlying question driving it being Given that the communist left was fatally wounded by the collapse of the Berlin Wall given that since then the terms left and right have not infrequently been attacked especially by populists as being no longer useful for making sense of politics given that social democracy understood as national Keynesianism no longer appears to be viable as reflected in its long term electoral decline what does it mean to be on the left in the early 21st century and what can be done to revive its fortunes Its answer is that being on the left means embracing principles of equality and international solidarity and that since the nation state is too small to respond effectively to climate change and the other most pressing issues of the present no viable strategy for left wing revival in Europe can dispense with European integration as a central element of which European democratisation is a core component

Sovereignty in Conflict Julia Rone, Nathalie Brack, Ramona Coman, Amandine Crespy, 2023-06-06 This edited volume brings together leading international researchers in an attempt to disentangle and understand the multiple conflicts of sovereignty within the European polity in the aftermath of the 2008 economic crisis While most research on sovereignty focuses on its international dimensions what makes this volume distinctive is the focus on the mobilization of sovereignty discourses in national politics Contrary to tired paradigms studying clashes between national and supranational sovereignty the various chapters of the volume offer a provocation for the readers what if these old vertical conflicts of sovereignty are increasingly complemented by horizontal conflicts between executives and parliaments at both the national and international level

European Variations as a Key to Cooperation Ernst Hirsch Ballin, Emina Ćerimović, Huub Dijstelbloem, Mathieu Segers, 2020-01-02 This Open Access book offers a novel view on the benefits of a lasting variation between the member states in the EU In order to bring together thirty very different European states and their citizens the EU will have to offer more scope for variation Unlike the existing differentiation by means of opt outs and deviations variation is not a concession intended to resolve impasses in negotiations it is rather a different structuring principle It takes differences in needs and in democratically supported convictions seriously A common core remains necessary specifically concerning the basic principles of democracy rule of law fundamental rights and freedoms and the common market By taking this approach the authors

remove the pressure to embrace uniformity from the debate about the EU's future. The book discusses forms of variation that fall both within and outside the current framework of European Union Treaties. The scope for these variations is mapped out in three domains: the internal market, the euro, and asylum, migration, and border control.
