Eschatological Architecture and Liturgical Theatrics in New Spain

JAIME LARA

"This is a surprising detective story tracing the very complex paths and intersections of cultural, iconographical, and theological influences that formed the architecture and liturgical spaces of New Spain. I don't know of another scholar who has commanded this kind of knowledge about the Jewish, Christian, and Muslim streams of influence and interaction which appeared in the chapels, temples, and theatrical ritual spaces of Mexico." —David Carrasco, Harvard University

"This book is an outstanding contribution to the iconographic studies of Spanish American colonial architecture and urbanism. With great erudition and an impressive command of literary and visual sources, Lara sheds new light for a better understanding of the ideas behind the creation of magnificent urban settings and religious buildings which brought together for the first time native American and Western European traditions. His insightful eschatological reading of *City, Temple, and Stage* both as physical realities and ideological metaphors offers an important key for deciphering the multiple layers of meaning which they embodied as they mirrored two different world views that merged to create a new society in the Americas. A model of scholarly analysis and interpretation, this work sets a high standard and is an indispensable reference for future studies." —Dr. Humberto Rodríguez-Camillón, Virginia Tech

City Temple Stage Eschatological Architecture And Liturgical Theatrics In New Spain:

City, Temple, Stage Jaime Lara, 2004 *City Temple Stage* is a new interpretation of the art architecture and liturgy created for the conversion of Aztecs and other native peoples of central Mexico by European Franciscan missionaries in the mid sixteenth century Jaime Lara contends that the design of missionary centers or so called fortress monasteries can only be understood against the backdrop of the eschatological concerns of the age and the missionary techniques of the mendicant friars Lara argues that these architectural constructions are quasi theatrical sets for elaborate educational and liturgical events that acted as rehearsals for the last age of world history Euro Christian apocalyptic texts Lara has been able to identify a consistent thread connecting the religious and liturgical imaginations of these juxtaposed cultures The close parallels between the symbols and metaphors of Aztec religion and medieval Catholicism fostered an unusual synthesis between their different world visions These visual literary and cultic metaphors survive in what we today call Mexican Catholicism Drawing on his expertise as a medievalist Latin Americanist and architectural and liturgical historian Lara offers an astonishingly comprehensive and compelling examination of the churches and liturgies created by the Franciscans for new Aztec Christians Lara s fascinating narrative is supplemented by more than 230 images **Angels in the Early Modern**

The Cross Robin M. Jensen, 2017-04-17 This erudite history illuminates the social cultural as well as theological developments of the cross through 2000 years of its symbolic evolution Library Journal Jesus s death on the cross posed a dilemma for Saint Paul and the early Church fathers Crucifixion was a humiliating form of execution reserved for slaves and criminals How could their messiah and savior have been subjected to such an ignominious death Wrestling with this paradox they reimagined the cross as a triumphant expression of Christ s sacrificial love and miraculous resurrection Over time the symbol s transformation raised myriad doctrinal questions particularly about the crucifix the cross with the figure of Christ and whether it should emphasize Jesus s suffering or his glorification How should Jesus s body be depicted alive or dead naked or dressed Should it be shown at all Robin Jensen s wide ranging study focuses on the cross in painting and literature the quest for the true cross

in Jerusalem and the symbol's role in conflicts from the Crusades to wars of colonial conquest. The Cross also reveals how Jews and Muslims viewed the most sacred of all Christian emblems and explains its role in public life in the West today.

Decolonial Christianities Raimundo Barreto, Roberto Sirvent, 2019-11-11. What does it mean to theorize Christianity in light of the decolonial turn? This volume invites distinguished Latinx and Latin American scholars to a conversation that engages the rich theoretical contributions of the decolonial turn while relocating Indigenous Afro Latin American Latinx and other often marginalized practices and hermeneutical perspectives to the center stage of religious discourse in the Americas. Keeping in mind that all religions Christianity included are cultured and avoiding the abstract references to Christianity common to the modern Eurocentric hegemonic project, the contributors favor embodied religious practices that emerge in concrete contexts and communities. Featuring essays from scholars such as Sylvia Marcos, Enrique Dussel, and Luis Rivera Pagán, this volume represents a major step to bring Christian theology into the conversation with decolonial theory.
