STANDARD CE.7A -- STATE GOVERNMENT

The structure and powers of the state government.

The form of government of the **Commonwealth of Virginia** is established by the **Virginia Constitution**.

Legislative, executive, and judicial powers are separated at the state level of government.

What is the structure of Virginia's state government?

What are some of the powers of the three branches of state government?

The Virginia Constitution distributes power among the **legislative, executive, and judicial branches** of the state government.

The legislative branch is the **General Assembly**, a bicameral legislature—the **House of Delegates** and the **Virginia Senate**—that meets annually for a fixed number of days.

The executive power is exercised by the **governor**, who is elected for a **four-year term** of office. The governor appoints members of the cabinet, who oversee specific functions of government.

The **lieutenant governor** and the **attorney general** are executive branch officers who are elected for a four-year term of office.

The judicial power is exercised by a **court system** that consists of **four levels** of courts:

- **Supreme Court**
- **Court of appeals**
- **Circuit courts**
- **District courts** (including small claims courts and juvenile and domestic relations courts)

STANDARD CE.7B -- FEDERALISM

The relationship of state governments to the national government in the federal system.

The Constitution of the United States of America establishes the principle of **federalism**, which is the **division of power** between the **states** and the **national government**.

The **expansion** of the **national government's powers** into areas traditionally **reserved to the states** has altered the relationship of states to the national government.

How does the Constitution of the United States of America outline the division and sharing of powers between the national and state governments?

The Constitution of the United States of America establishes a **federal form of government** in which the **national government is supreme**.

The **powers not given** to the national government by the Constitution of the United States of America are **reserved to the states**.

The Constitution of the United States of America **denies certain powers** to both the national and state governments.

Primary responsibilities of each level of government

- **National:** Conducts **foreign policy**, regulates **commerce**, and provides for the **common defense**
- **State:** Promotes **public health, safety, and welfare**

Tensions exist when **federal mandates** require state actions without adequate **funding**.
