By Liu Kang Globalization And Cultural Trends In China Paperback:

Globalization and Cultural Trends in China Kang Liu, 2003-12-31 In this timely work Liu Kang argues that globalization in China is both a historical condition in which the country's gaige kaifang reform and opening up has unfolded and a set of values or ideologies by which it and the rest of the globe are judged. Moreover globalization signals a significant ascendancy of culture. Liu examines China's current ideological struggles in political discourse, intellectual debate, popular culture, avant garde literature, the news media and the internet. With careful textual analysis and observation informed by critical theories and cultural studies he offers a forceful critique of the Chinese version of globalism that privileges economic development at the expense of social justice and equality. The Cultural Roots of Strategic Intelligence Gino LaPaglia, 2019-11-20 Strategic Intelligence is a form of meaning that promises the possibility of strategic advantage, dignity, the achievement of objective and the fulfillment of potential in hostile environments. In *The Cultural Roots of Strategic Intelligence* Gino LaPaglia demonstrates that the strategic aspect of reason arising in human experience encoded as value and born by culture as a strategic resource has been encoded as values that have been memorialized in culturally authoritative sources in various Eurasian cultures for thousands of years. These sources have validated a strategic orientation in the world, legitimized the strategist as a heroic identity and transmitted a coherent world view that enables the practitioner of strategy to overcome asymmetric threat. By excavating the provenance of strategic thought expressed in the cultural identity of the strategist in the most culturally authoritative mythological, literary, philosophical and religious sources and excavating the underlying strategic values expressed in cultural products, LaPaglia demonstrates that the strategic aspect of human rationality is one of the most basic structural dynamics of human meaning and that the transmission of this strategic way of being and acting in the world offers hope for life's underdogs. *Chinese Ecocinema* Sheldon H. Lu, Jiayan Mi, 2009-12-01 This anthology is a book-length study of China's ecosystem through the lens of cinema. Proposing ecocinema as a new critical framework, the volume collectively investigates a wide range of urgent topics in today's world. **Thirty Years of China - U.S. Relations** Sujian Guo, Baogang Guo, 2010-08-04 The year 2009 marks the 30th anniversary of normalization of Sino-U.S. relations. Over the past 30 years the bilateral relations have developed by twists and turns. It is not until recent years that some stability and forward-looking exchanges have returned to the central stage, albeit tensions, grievances and mistrust continue to persist. Washington has encouraged China to become a responsible stakeholder in the world affairs while China has urged the U.S. to work with China to build a harmonious world. Both sides want to work together to solve their differences through dialogs and negotiations. In the wake of the worldwide financial crisis of 2008, 2009 China has contributed greatly in financing the crumbling U.S. financial market and lent a helping hand in stabilizing the world economy. Nevertheless the foundation of the relationship remains very fragile and the long-term prospect for a constructive cooperative relationship is still full of uncertainties. For many Americans China's increasing global reach and

growing political and economic influence constitute the greatest challenge to world dominance by the United States As a result some perceive China s rise as a threat to Americans core national interests The recent changes in the global geostrategic landscape and economic interdependence have suggested that some new ideas factors conditions and elements are shaping the relations between the two countries The task of *Thirty Years of China U S Relations Analytical Approaches and Contemporary Issues* is to explore these factors issues and challenges and their impact for the bilateral relations in the 21st century *Chinese Literature and Culture in the Age of Global Capitalism* Xiaoping Wang,2021-07-15 Combining anatomies of textual examples with broader contextual considerations related with the social political and economic developments of post Mao China Xiaoping Wang intends to explore newly emerging social and cultural trends in contemporary China and find the truth content of Chinese society and culture in the age of global capitalism Through in depth textual analyses covering a variety of media ranging from fiction poetry film to theoretical works as well as cultural phenomena which mirror social and cultural occurrences and reflect the present ideological proclivities of the Chinese society this study offers timely interpretations of China in the age of globalization its political inclinations social fashions and cultural tendencies and provides thought provoking messages of China s socio economic and political reality

Animation in China Sean Macdonald,2015-11-06 By the turn of the 21st century animation production has grown to thousands of hours a year in the People s Republic of China PRC Despite this and unlike American blockbuster productions and the diverse genres of Japanese anime much animation from the PRC remains relatively unknown This book is an historical and theoretical study of animation in the PRC Although the Wan Brothers produced the first feature length animated film in 1941 the industry as we know it today truly began in the 1950s at the Shanghai Animation Film Studio SAFS

which remained the sole animation studio until the 1980s Considering animation in China as a convergence of the institutions of education fine arts literature popular culture and film the book takes comparative approaches that link SAFS animation to contemporary cultural production including American and Japanese animation Pop Art and mass media theory Through readings of classic films such as Princess Iron Fan Uproar in Heaven Princess Peacock and Nezha Conquers the Dragon King this study represents a revisionist history of animation in the PRC as a form of postmodernism with Chinese characteristics As a theoretical exploration of animation in the People s Republic of China this book will appeal greatly to students and scholars of animation film studies Chinese studies cultural studies political and cultural theory *Communication in China* Yuezhi Zhao,2008-03-20 The stakes for control over the means of communication in China have never been so high as the country struggles with breathtaking social change This authoritative book analyzes the key dimensions of the transformation in China s communication system since the early 1990s and examines the highly fluid and potentially explosive dynamics of communication power and social contestation during China s rapid rise as a global power Yuezhi Zhao begins with an analysis of the party state s reconfiguration of political economic and ideological power in the Chinese communication system She then explores the processes and social implications of domestic and foreign capital formation in the communication industry Drawing on media and Internet debates on fundamental political economic and social issues in contemporary China the book concludes with a nuanced depiction of the pitched and uneven battles for access and control among different social forces Locating developments in Chinese communication within the nexus of state market and society the author analyzes how the legacies of socialism continue to cast a long shadow The book not only provides a multifaceted and interdisciplinary portrait of contemporary Chinese communication but also explores profound questions regarding the nature of the state the dynamics of class formation and the trajectory of China s epochal social transformation **Globalization and the Humanities** David Leiwei Li,2003-12-01 This is the most comprehensive collection to date on how economic globalization transforms contemporary humanistic inquiries on matters of fundamental cultural and political significance Against the tyranny of the worldwide free market that naturalizes the aggregation of power for the increasingly few the contributors to this volume at once advocate an egalitarian model of global distributive justice and cultivate a cosmopolitan communal consciousness Writing from their diverse specialties and theoretical perspectives the group of scholars assembled here has made the humanities a productive forum to articulate an alternative form of globalization based on universal human rights As such this collaborative effort counters the hegemony of neoliberal privatization and holds the promise of intellectual agency for an equitable reproduction of cultural capital in the global era Globalization and the Humanities will be of great use for scholars and students interested in the intellectual and ideological developments of the humanities in the past three decades It clearly anchors the debates on the canon the inclusion of third world and minority authors of popular cultural genres and new media forms in an emerging globalization paradigm The anthology will prove essential for students of undergraduate

and graduate levels as well for scholars in the academy
