

$2t^3$ and that $\frac{dy}{dt} = 2t + 4t^3$.

Given that $y = 10$ when $t = 1$, find an expression for y in terms of t .

[5]

$$\frac{dy/dt}{dx/dt} \Rightarrow 2t + 4t^3 = \frac{dy/dt}{6t^2} (\times 6t^2)$$

$$= 12t^3 + 24t^5$$

$$y = \int 12t^3 + 24t^5 dt$$

$$= 3t^4 + 4t^6 + C$$

$$y = 10, t = 1$$

$$= 3(1)^4 + 4(1)$$

Dream Hoarders Richard V. Reeves, 2017-05-23 *Dream Hoarders* sparked a national conversation on the dangerous separation between the upper middle class and everyone else. Now in paperback and newly updated for the age of Trump, Brookings Institution senior fellow Richard Reeves is continuing to challenge the class system in America. In America, everyone knows that the top 1 percent are the villains. The rest of us, the 99 percent, we are the good guys. Not so, argues Reeves. The real class divide is not between the upper class and the upper middle class; it is between the upper middle class and everyone else. The separation of the upper middle class from everyone else is both economic and social, and the practice of opportunity hoarding—gaining exclusive access to scarce resources—is especially prevalent among parents who want to perpetuate privilege to the benefit of their children. While many families believe this is just good parenting, it is actually hurting others by reducing their chances of securing these opportunities. There is a glass floor created for each affluent child, helped by his or her wealthy stable family. That glass floor is a glass ceiling for another child. Throughout *Dream Hoarders*, Reeves explores the creation and perpetuation of opportunity hoarding and what should be done to stop it, including controversial solutions such as ending legacy admissions to school. He offers specific steps toward reducing inequality and asks the upper middle class to pay for it. Convinced of their merit, members of the upper middle class believe they are entitled to those tax breaks and hoarded opportunities. After all, they aren't the 1 percent. The national obsession with the super rich allows the upper middle class to convince themselves that they are just like the rest of America. In *Dream Hoarders*, Reeves argues that in many ways they are worse, and that changes in policy and social conscience are the only way to fix the broken system.

Third-Party Certifiers Jan De Bruyne, 2019-07-12 *Third Party Certifiers* Jan De Bruyne. Third party certifiers are organisations that are independent of a requesting entity. They attest that a product, service, information, or person possesses certain qualifications or meets safety, quality, or technical standards. This important book presents an in-depth analysis of the liability and obligations of certifiers, evaluates existing certification processes in selected fields, and proposes new mechanisms which could increase the accuracy and reliability of certifiers' ratings, marks, or reports. Highlighting the risks of errors in this activity, inaccurate certification was a major factor in the global financial crisis of 2008. The author takes a comparative approach, looking at the certification process in several European countries, Australia, and the United States. Such aspects of the process as the following are thoroughly described: obligations and liability of certifiers during the certification process; risk of information asymmetry between the requesting entity and the end user; and relationship between the civil liability of certifiers and public law aspects. The analysis includes detailed research on key industries and jurisdictions and a specific proposed framework for more accurate and reliable certification. Because the efficient and effective functioning of third party certifiers is extremely important in today's world, especially in such areas as
