Halfyard, 2017-07-05 Between 1958 and 2002 Luciano Berio wrote fourteen pieces entitled Sequenza along with several versions of the same work for different instruments revisions of the original pieces and also the parallel Chemins series where one of the Sequenzas is used as the basis for a new composition on a larger scale The Sequenza series is one of the most remarkable achievements of the late twentieth century a collection of virtuoso pieces that explores the capabilities of a solo instrument and its player making extreme technical demands of the performer whilst developing the musical vocabulary of the instrument in compositions so assured and so distinctive that each piece both initiates and potentially exhausts the repertoire of a new genre The Sequenzas have significantly influenced the development of composition for solo instruments and voice and there is no comparable series of works in the output of any other composer Series of pieces tend to be linked by the instruments for which the composer writes but this is a series in which the pieces are linked instead by the variety of instruments for which Berio composed The varied approaches taken by the contributors in discussing the pieces demonstrate the richness of this repertoire and the many levels on which Berio and these landmark compositions can be considered Contributions are arranged under three main headings Performance Issues Berio s Compositional Process and Aesthetics and Analytical Approaches The Paraguayan Harp Alfredo Colman, 2015-01-22 How did a music instrument transplanted to South America by colonial Jesuit missionaries earn the official designation as Paraguay s cultural national symbol This ethnomusicological and organological study of the Paraguayan diatonic harp in the twentieth century tells its story as an emblematic national musical instrument First used liturgically by Jesuit missions in colonial times the transplanted European diatonic harp was transformed and adopted into the folk music vocabulary of Paraguay and the R o de la Plata region Following the commercial success of Paraguayan harpist F l i x P rez Cardozo in the 1930s in Argentina the instrument s symbolic value as an icon of social cultural and national identity was articulated in local traditions such as popular folk music festivals It received designation of arpa paraguaya Paraguayan harp and in 2010 official recognition as simbolo de la cultura nacional cultural national symbol The author s fieldwork in Paraguay and continuous contact with composers educators festival organizers harp performers researchers and festival organizers have provided unique insights into the development

It is a matter of record that over the centuries composers and musicians have been consistently inspired by the occult. Few music lovers can fail to have been intrigued by the rumours of magick and mysticism that surround many of their favourite albums. In chapters that cover the different musical styles from jazz through folk rock, pop, noise and experimental forms, *Gathering Of The Tribe* sketches a fascinating overview of this provocative and enduring relationship with heavy conscious creation, offering en route a guide to the ultimate occult record collection ranging from the Beatles to the Stones, Led Zeppelin to Nick Cave, Captain Beefheart to the Wu Tang Clan, Debussy to Throbbing Gristle, Charles Manson, Barbara, the Gray Witch Coven and more.
