Using old histology atlases or lab manuals, cut out several color images of each of the connective tissues, nervous tissue, and each of the muscle tissues. Distribute 1 envelope to each group after they have studied the connective tissues, nervous tissue, and the muscle tissues. For the second part of this Group Challenge, obtain 6 more medium brown envelopes. Using old histology atlases or lab manuals, cut out a color image of a section of the trachea. As you proceed away from the luminal side of the tissue, you should see ciliated pseudostratified columnar epithelium, areolar connective tissue of the lamina propria, epithelial tissue of the submucosal glands, and hyaline cartilage. Give this envelope to each group at the end of the study of tissues.
