Cuban Youth And Revolutionary Values Educating The New Socialist Citizen:

Cuban Youth and Revolutionary Values Denise F. Blum, 2011-01-15 Drawing on extensive fieldwork in Havana's secondary schools Cuban Youth and Revolutionary Values is a remarkable ethnography charting the government's attempts to transform a future generation of citizens While Cuba's high literacy rate is often lauded the little known dropout rates among teenagers receive less scrutiny In vivid succinct reporting educational anthropologist Denise Blum now shares her findings regarding this overlooked aspect of the Castro legacy Despite the fact that primary school enrollment rates exceed those of the United States the reverse is true for the crucial years between elementary school and college After providing a history of Fidel Castro's educational revolution begun in 1953 Denise Blum delivers a close examination of the effects of the program which was designed to produce a society motivated by benevolence rather than materialism Exploring pioneering pedagogy the notion of civic education and the rural components of the program Cuban Youth and Revolutionary Values brims with surprising findings about one of the most intriguing social experiments in recent history

The Shifting Global World of Youth and Education Mabel Ann Brown, 2017-08-15 The Shifting Global World of Youth and Education explores how increasing migration and population changes are having an unprecedented impact on global education Given that the number of children of migrant background is growing internationally there is a need for increasing awareness of the educational attainment and cultural integration of this population group This book presents international perspectives on migration and youth and analyses what kinds of effects such demographic changes are having on educational systems around the world The chapters in this volume provide a fascinating insight into how countries around the world are dealing with loss or growth in their young population as well as changes to their education systems Written by specialist academics from the relevant country the book covers Cuba Lithuania the United Kingdom the United States Finland Greece Germany Austria Hungary Latvia China Australia India Italy and Poland Taking into consideration the countries social and political context the chapters discuss educational issues surrounding curriculum assessment and the opportunities available for the support of young people Conclusions are drawn about what could be done in the future for the benefit of both the migrant and the existing populations The Shifting Global World of Youth and Education will be of great interest to academics researchers and postgraduate students in the disciplines of education sociology political sciences and social work The book will also give secondary teachers teaching assistants social workers and youth workers the opportunity to reflect on their role within a national and international context

Logics of Socialist Education Tom G. Griffiths, Zsuzsa Millei, 2012-09-11 For some socialism is a potent way of achieving economic political and social transformations in the twenty first century while others find the very term socialism outdated This book engages readers in a discussion about the viability of socialist views on education and identifies the capacity of some socialist ideas to address a range of widely recognized social ills It argues that these pervasive social problems which plague so called developed societies as much as they contribute to the poverty humiliation and lack of prospects in the rest of the world fundamentally challenge us to act In our contemporary world system distancing ourselves from the injustices of others is

neither viable nor defensible Rather than waiting for radically new solutions to emerge this book sees the possibility of transformation in the reconfiguration of existing social logics that comprise our modern societies including logics of socialism The book presents case studies that offer a critical examination of education in contemporary socialist contexts as well as reconsidering examples of education under historical socialism In charting these alternatives and retooling past solutions in a nuanced way it sets out compelling evidence that it is possible to think and act in ways that depart from today's dominant educational paradigm It offers contemporary policy makers researchers and practitioners a cogent demonstration of the contemporary utility of educational ideas and solutions associated with socialism A pioneering collection of essays which is central to understanding the historical and contemporary meanings of socialism in the context of neoliberal globalization It is a most timely contribution to a growing intellectual project that challenges the hegemony of capitalism while rethinking and theorizing alternatives Iveta Silova Associate Professor of Comparative Education Lehigh University Bethlehem PA USA In this significant contribution to recent scholarship the authors use the lens of socialist education to offer an original critique of hegemonic capitalism and present an intellectually rigorous search for alternatives by reconsidering historical socialism and advancing promising educational experiments that challenge the global architecture of education Anders Breidlid Professor of International Education and Development Oslo University College Norway **Cuba** Louis A. Pérez, 2015 Spanning the history of the island from pre-Columbian times to the present this highly acclaimed survey examines Cuba's political and economic development within the context of its international relations and continuing struggle for self-determination The dualism that emerged in Cuban ideology between liberal constructs of patria and radical formulations of nationality is fully investigated as a source of both national tension and competing notions of liberty equality and justice Author Louis A. Pérez Jr integrates local and provincial developments with issues of class race and gender to give students a full and fascinating account of Cuba's history focusing on its struggle for nationality Education in Mexico, Central America and the Latin Caribbean C. M. Posner, Christopher Martin, Ana Patricia Elvir, 2017-12-14 Education in Mexico Central America and the Latin Caribbean examines the development and practice of education in Mexico Costa Rica Cuba the Dominican Republic El Salvador Guatemala Haiti Honduras Nicaragua and Panama The chapters written by local experts provide an overview of the structure aims and purposes of education in each of these ten countries with very different socioeconomic backgrounds The authors present curriculum standards pedagogy evaluation accountability and delivery discussing both how the formal systems are structured and how they actually function The volume explores the origins of proposed reforms and their implementation emphasising the distinctiveness of each country and attempting to locate new practices that could lead to better education Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets this book is an essential reference for researchers scholars international agencies and policy makers
