Horizons of Difference Fred Dallmayr, 2020-10-31 In his latest book *Horizons of Difference Engaging with Others* Fred Dallmayr argues that the dialogue between religious and secular commitments between faith and reason is particularly important in our time because both faith and reason can give rise to dangerous and destructive types of extremism fanaticism or idolatry In this interdisciplinary and cross cultural synthesis of philosophy religious thought and political theory Dallmayr neither accepts the clash of cultures dichotomy nor denies the reality of cultural tensions Instead operating from the standpoint of philosophical hermeneutics he embraces cultural difference as a necessary condition and opportunity for mutual cross cultural dialogue and learning In part 1 *Relationality and Difference* Dallmayr explores the emergence of diverse loyalties and attachments in different social and cultural contexts The assumption is not that different commitments are necessarily synchronized or naturally compatible but rather that they are held together precisely by their difference and potential antagonism Part 2 *Engagement through Dialogue and Interaction* dwells on the major means of mediating between the alternatives of radical separation and radical sameness dialogue and hermeneutical interpretation of understanding In this respect the emphasis shifts to leading philosophers of dialogue such as Hans Georg Gadamer Bernhard Waldenfels and Maurice Merleau Ponty In a world where the absolutizing of the ego encourages selfish egotism that can lead to aggressive warmongering *Horizons of Difference* shows how the categories of difference and relationality can be used to build a genuine and peaceful democracy based on dialogue and interaction instead of radical autonomy and elitism

Spiritual Guides Fred Dallmayr, 2017-12-15 In Spiritual Guides Pathfinders in the Desert Fred Dallmayr challenges the desert character of modern culture Political and economic corruption incessant warmongering spoliation of natural resources and above all mindless consumerism and greedy self satisfaction are all symptoms of what he contends is an expanding wasteland or desert where everything creative and nourishing decays and withers Through an alternative interpretation of Nietzsche s saying the desert grows this book calls for spiritual renewal invoking in particular four prominent guides or pathfinders in the desert Paul Tillich Raimon Panikkar Thomas Merton and Pope Francis What links all four guides together is the view of spiritual life as an itinerarium a pathway along difficult and often uncharted roads Dallmayr begins by drawing a connection between Nietzsche s characterization of the desert in Thus Spoke Zarathustra and the present culture of consumerism in which a nearly exclusive emphasis on productivity efficiency profitability and the transformation of everything valuable into a useful resource prevails over all other goals He also draws attention to another sense of desert namely as a place of solitude meditation and retreat from affliction Aptly defined it becomes a place where spirituality arises from a painful turning about a wrenching effort to extricate human life from the decay of late modernity Spirituality is not a possession or property but rather the contemplation and radical mindfulness that we develop through engaged practices as we search for pathways to recovery Spirituality becomes critical in the dominant political and cultural wasteland because it provides a bond linking humanity together In the spirit of global ecumenism Spiritual Guides also includes a discussion of Muslim Hindu and Buddhist forms of spirituality This book will interest students and scholars of philosophy political theory and religion

Practicing Discipleship Nicole L. Johnson,2009-06-01 Despite a plurality of doctrinal statements on war peace and nonviolence some United Methodists sustain a commitment to nonviolence Through qualitative research Practicing Discipleship draws out lived theologies of nonviolence in order to understand how nonviolent United Methodists define ground and practice nonviolence and to give that voice opportunity to challenge church doctrine and thereby the wider church An analysis of statements from the Book of Disciplines and the Book of Resolutions reveals the plurality of Methodist teachings on moral issues related to war and peace While such plurality is indicative of the inclusive tradition of United Methodism Johnson shows that it also causes confusion thus hindering the vitality and authority of the church s witness This study s qualitative analysis of in depth interviews with twelve nonviolent United Methodists reveals a lived theology rooted in Scripture and theological reflection it points particularly to a christocentrism that posits nonviolence as central to Christ s teachings and example While study participants affirm the tradition of openness in the United Methodist Church they also call for more tangible and extensive support for and education about nonviolence as a faithful option for Christians Through amicable and constructive practical theological dialogue doctrinal plurality and ecclesial openness are affirmed as appropriate and possible only within the context of the church s profound commitment to serious discipleship which includes transformation toward nonviolence Implications of this interaction include developing and adopting a more truthful conception of a nonviolent ethics moving toward broadly conceived Christian formation in nonviolence and fostering ongoing ecclesial dialogue about difficult moral

issues of war peace and nonviolence
