helped secure their place in social hierarchies of class and race This pursuit of refinement McInnis demonstrates was bound up with their determined efforts to control the city's African American majority She then examines slave dress mobility work spaces and leisure activities to understand how Charleston slaves negotiated their lives among the whites they served The textures of lives lived in houses yards streets and public spaces come into dramatic focus in this lavishly illustrated portrait of antebellum Charleston McInnis's innovative history of the city combines the aspirations of its would-be nobility the labors of the African slaves who built and tended the town and the ambitions of its architects painters writers and civic promoters
