The Presenter's Fieldbook Robert J. Garmston, 2018-02-01 Proper presentations have the power to persuade and transform people and organizations. This is a book about the art of presenting. Using current knowledge about learning, this book describes best practices for designing, delivering, debriefing, and growing from the presenting experience. Some highlights include how to give a two-minute speech, getting comfortable in your own skin, overcoming resistance and audience fatigue, and how to de-demonize the personal digital devices in training rooms today. What's new in this edition is information on interactive presentation technology, making the first 5 minutes magical, a new treatment of presentation design and attention to cultural mindfulness. This third edition continues to be a guidebook for anyone who has ever stood before a group to make a presentation, novices and experts alike. For novices, the book provides a respected foundation upon which to enhance learning for adults. For experienced presenters, it offers an opportunity to fine-tune your work in specific areas. For the specialist, professor, or trainer of those teaching adults, it serves as a curriculum guide.
