Elephants Under Human Care Paul A. Rees, 2020-09-27 This book draws together for the first time the published research on the behaviour ecology and welfare of elephants living in zoos circuses logging camps and other captive environments in a single comprehensive volume It takes a multi disciplinary approach considering the work of zoo biologists animal behaviour and welfare scientists veterinarians philosophers zoo educators tourism specialists conservation biologists lawyers and others with a professional interest in elephants *Elephants under Human Care The Behaviour Ecology and Welfare of Elephants in Captivity* is a valuable resource for zoo biology and animal welfare researchers It is also useful for

students and zoo professionals and managers looking for a comprehensive guide to current research on captive elephants Although not intended as a husbandry manual the book discusses some of the elephant welfare standards developed by the Association of Zoos and Aquariums AZA and the British and Irish Association of Zoos and Aquariums BIAZA and their relationship to current knowledge of captive elephants Includes results of captive studies compared with field studies of wild elephants Features original images of elephant behaviour as they live and behave under human care Includes results of the author's original research including many original photographs Considers future implications of research for the welfare and conservation of elephants both for elephants in captivity and those living in the wild Zoo Studies Paul A. Rees, 2023-06-01

Zoos and aquariums are culturally and historically important places where families enjoy their leisure time and scientists study exotic animals Many contain buildings of great architectural merit Some people consider zoos little more than animal prisons while others believe they play an important role in conservation and education Zoos have been the subject of a vast number of academic studies whose results are scattered throughout the literature This interdisciplinary volume brings together research on animal behaviour visitor studies zoo history human animal relationships veterinary medicine welfare education enclosure design reproduction legislation and zoo management conducted at around 200 institutions located throughout the world The book is neither pro nor anti zoo and attempts to strike a balance between praising zoos for the good work they have done in the conservation of some species while recognising that they face many challenges in making themselves relevant in the modern world **Studying Captive Animals** Paul A. Rees, 2015-06-02

Studying Captive Animals outlines the methods that may be used to study the behaviour welfare and ecology of animals living under the control of humans including companion animals feral populations and those living on farms and in zoos This book is a step by step guide to the whole process of conducting a scientific study from designing the original project formulating testable hypotheses and collecting and analysing the data to drawing conclusions from the work and writing it up as a scientific report or paper It also illustrates how to write a formal research proposal a crucial and often difficult element of the student project and how to deal with the ethical review process Sample data collection sheets are provided and the analysis and presentation of data are worked through in diagrammatic form In addition exercises are included that enable the reader to practice analysing different types of data and advice is provided on the selection of appropriate statistical tests The text describes the different types of student projects that may be undertaken in the field and explains where secondary data may be found for zoos This is an insightful resource particularly for those studying and working with zoo and farm animals It is essential reading for students studying zoo biology and animal management it is also suitable for students on courses in animal behaviour animal welfare zoology biology psychology animal science animal production animal ecology conservation biology and veterinary science This book is primarily intended for undergraduates but will also be of value to postgraduate students who have not previously engaged in field studies Professionals working in institutions that are members of the
